Presentation: Pavement Management Program

Issue/Request
Pavement Management Program Presentation

Key Issues:
o The Pavement Management Program manages the City's four annual capital maintenance programs:
Mill & Overlay
Surface Seal
Crack Seal
Curb Replacement

o The purpose of the presentation is to provide information to elected officials and create community awareness of the development and management of these annual programs.

Background:
City staff annually develops four capital pavement management programs to extend the usable life of the City's streets. This presentation and discussion will outline the thought process utilized to develop the programs.

Vince Schmoeger, Public Works Project Manager
