Communications Center Pricing Proposal (F&BC 10-1-18)

Issue/Request:
This is to provide information to the Finance and Budget Committee on the restructured pricing proposal for billing of the Lee's Summit Fire Department Communication Center services.

Key Issues:
Per recent Council direction, the assessment method for billing of Communication Center services has been re-evaluated and reflects an actual cost share between all agencies, based on size and use, rather that assessed valuation.

Assistant Chief Brian Austerman

Committee Recommendation:

Motion by Councilmember Johnson, seconded by Councilmember Carlyle, the Committee voted to forward this Item to the full Council to be discussed in a closed session. The vote was unanimous. (F&BC 10-1-18)
