Presentation of Draft 2022 Airport Capital Improvement Program

Staff will present to the Board of Aeronautic Commissioners the Draft 2022 Airport Capital Improvement Program (CIP). The CIP is prepared annually and is a five year document projecting the future capital need and funding sources. The Draft CIP is the work product of Airport staff, Public Works staff and the aviation consultant.

Work towards the final document including reviewing transportation revenues and constraining the budget will remain after the BOAC has reviewed the plan. The draft CIP will also be reviewed by the Aviation Section of MoDOT prior to presentation to BOAC, City Manager or City Council, and changes can be made at any of those points.

For information purposes only.

Bob Hartnett, Deputy Director of Public Works (V)
