### Wall Sign Standards

	Copy & Location	Letter Height	Sign Area	Number of Signs	Lighting
<b>UDO Standards (PMIX)</b>	--	6' (72") max.	Max. 10% of tenant space façade area	2 wall signs per tenant for a multi-tenant building	External indirect, halo, or internal lighting

<b>Proposed Wall Sign #1</b>	Cava -- south façade	2'	12.5 sq. ft. (0.7% of façade area)	--	Internal lighting
<b>Proposed Wall Sign #2</b>	Cava – east façade	2'	12.5 sq. ft. (1.3% of façade area)	--	Internal lighting
<b>Proposed Wall Sign #3</b>	Cava – west façade	2'	12.5 sq. ft. (1.3% of façade area)	--	Internal lighting

Each of the proposed wall signs fall well within the allowable sign standards for the PMIX zoning district. As proposed, the signs will provide a means of identification and wayfinding on each of the tenant space’s three exposed facades.

#### 4. Unified Development Ordinance (UDO)

Section	Description
9.080,9.090,9.150,9.160,9.260	Signs

#### Unified Development Ordinance

The UDO grants the Planning Commission the authority to consider and approve signs that cannot be approved administratively because they exceed the allowable number, height or size standards under UDO Section 9.260, Table 9-1.

#### 5. Analysis

##### Background and History

The subject property is the site of a multi-tenant building on Lot 9C of The Streets of West Pryor development. The applicant proposes to have a wall sign on each of the tenant space’s three (3) facades instead of the maximum of two (2) wall signs allowed by right per tenant in a multi-tenant building.

- January 8, 2019 – The City Council approved a rezoning from R-1 (Single-family Residential) to PMIX and preliminary development plan (Appl. #PL2018-098) for The Streets of West Pryor by Ordinance No. 8531.

- March 27, 2022 – The final development plan (Appl. #PL2022-034) for Lot 9 of The Streets of West Pryor was administratively approved.

### **Compatibility**

The request for additional wall signage is not out of place for this type of commercial business. Many restaurants and retailers have more than the number of signs allowed by right. In this case, the subject tenant will occupy an end cap space with exposure on three sides of a building within a large mixed-use development. The subject site is a pad site with traffic circulation around all sides of the building.

### **Recommendation**

Staff believes the proposed three wall signs are compatible for the area, proportional for the building and provides a reasonable means of identification for the tenant space. With the conditions of approval below, the application meets the requirements of the UDO.

## **6. Recommended Conditions of Approval**

### **Site Specific**

1. A total of three (3) wall signs shall be allowed for the southern tenant space of the multi-tenant building at 904 NW Pryor Rd. The wall sign shall comply with the size requirements of the UDO.

### **Standard Conditions of Approval**

2. Sign permits shall be obtained prior to installation of any signs through the Development Services Department. All signs proposed must comply with the sign requirements as outlined in the sign section of the Unified Development Ordinance.
