Communities for All Ages Recognition Program

Community for All Ages Recognition program
A great place to grow up and grow old.

Is your city age friendly? Be recognized for the work you've done.
KC Communities for All Ages (CPAA) and the First Suburbs Coalition (FSC) are offering the Community for All Ages Recognition Program as an Incentive for your city to become a Community for All Ages.

How it works
This program will recognize communities that have taken steps to become more welcoming to residents of all ages and, in the process, more vibrant, healthy and prosperous. It is not meant to be a formal certification program.

A community can earn one of three levels of recognition representing the extent of its work in becoming a Community for All Ages: **Bronze** (Awareness), **Silver** (Assessment) or **Gold** (Implementation).

Recognition for each level requires a community to complete a set of tasks (see reverse). The tasks don't necessarily require a great financial commitment, but do require time and effort from elected officials and staff, as well as citizen engagement. In most cases, the tasks can be included in already-existing processes and programs.

Application process
To apply for Communities for All Ages recognition, submit an application form and supporting documentation to the First Suburbs Coalition via the Mid-America Regional Council (MARC) by 5 p.m., April 1, 2015.

A joint First Suburbs Coalition and KC Communities for All Ages committee will review applications and certify those communities that meet the criteria. Communities will be notified by June 1, 2015 if they have met the recognition criteria and, if not, what additional work needs to be done.

Communities are encouraged to use "Making Your Community Work for All Ages: A Toolkit for Cities" and the "Communities for All Ages Checklist" to guide their work. They are also encouraged to seek assistance from the First Suburbs Coalition, KC Communities for All Ages and MARC.

An application form may be downloaded at www.KCCommunitiesforAllAges.org.

Advantages of participating

- A more aware, well-planned community that meets the needs of all its residents.
- Regional recognition that your city is looking to the future, creating a community that is vibrant, connected and green, and serves the needs of all residents regardless of age.
- Recognition at First Suburbs Coalition and or Communities for All Ages events and on websites.
- Assistance with materials for websites, newsletters and news releases.
- News releases on the recognition and why it is important for communities.
- Templates for Community for All Ages street signs.

Step **Effort required**

3 **Implementation** Adopt Community for All Ages plan **Gold**

2 **Assessment** Use tools to assess your city's progress **Silver**

Become a Community for All Ages

A checklist to help you become age friendly

KC Communities for All Ages
JULY 2014

Does your city or county need tools to help it become a Community for All Ages? This checklist is designed to be used together with *Making Your Community Work for All Ages — A Toolkit for Cities* as a way to raise awareness, plan actions and assess your city for age friendliness.

The first suburbs of Kansas City, established nearly 60 years ago, have done exactly what they were intended to do — provide homes and services for families that raised the generation of Americans we now call the baby boomers. But, as the baby boomers have aged, and the oldest of the generation known as the millennials (young adults born between 1982 and 2004, now age 10 to 32) have come into adulthood, it is time to reevaluate the role that the suburbs play in housing and serving the American population.

Making Your Community Work for All Ages — A Toolkit for Cities provides detailed information on steps that communities can take to become more age friendly. The toolkit is available at www.kccfaa.org, or contact Cathy Boyer-Shesol at cboyer@marc.org or 816/701-8246 to get a printed copy.

in five Americans — or 72,774,000 million — will be older than 65, while researchers estimate there will be 76 million millennials in the U.S. at that time.

In the Greater Kansas City area, more than 416,000 residents will be 65 or older in 2030, while approximately 633,000 millennials will live here. Historically, the needs and interests of older adults have been seen as vastly different from younger generations and those of families with young children.

Kansas City's first suburbs can evolve in response to new trends and needs as communities for all ages. A community for all ages seeks to meet the needs and interests of the very old, the very young and everyone in between. A key driver for this work is the rapidly changing older adult demographics.

The post-war population swell known as the baby boom is paving the way for the next "baby boomlet," the generation known as the millennials that followed the smaller Generation X (ages 33 to 53) population. Today, the oldest baby boomers are in their late 60s. By 2030, one

Today, research shows that communities that are adapting to meet the needs of its older adult citizens raise the quality of life in ways that also appeal across the age spectrum.
