Position:

Why interested: I am interested in helping the City manage safe access to its streets and parks for its citizens. As a life long, avid runner and bicyclist, I understand the challenges of safely exercising on local streets and in our parks. I also raised three very active, athletic children who often utilized the parks for their various sporting activities. Two of my children continue to actively run and bike in our city. I recognize the balance that is required to meet the citizens' various needs. In addition, my educational background and many years of experience in the accounting and regulatory departments as well as the former customer service office in Lee's Summit for Missouri Public Service/Aquila/KCP&L provided me the insight into the many political challenges, city/state guidelines, and financial considerations within which the City must operate. Due to my recent retirement, I now have adequate time to devote to the City's agendas, and I believe I would be an asset to these City Boards. Thank you for your consideration. I look forward to hearing from you.
