Interest Response: I am looking to expand my horizons and get more involved with Lee's Summit city government. I have been interested in serving on the Planning Commission for some time. I have championed Lee's Summit for the last 27 years by bringing many families here via my career as a Realtor. I know and understand what our residents wanted when they moved here and how much they depend on Lee's Summit leadership to continue conscientious growth in the future and keep property values strong. My expertise is in real estate sales, land sales and development. I have built and sold homes as well as developed and sold land, so I have hands on experience with how that process works. I understand first-hand the positions of the builder, developer, land owner and homeowner and can relate to the perspective of each. I am always a team player and my years in leadership positions have taught me how to effectively negotiate to a win/win and solve problems with care and tact.

Other Activities: I currently serve on the Tax Review committee and the Water Utilities board. I am a long time member of the Chamber of Commerce and have served on several committees throughout the years. In earlier years I spent 12 years involved in PTA serving in all positions up to VP of Prairie View elementary. I serve as one of the Lee's Summit Symphony board member

Interested in serving on: Planning Commission

Other Interests: I have really enjoyed volunteering and have always felt it is my duty to serve my community in some way. This may sound corny, but I mean it when I say, I really love people. As a Realtor I encounter many kinds of people and situations good and bad. I have loved learning about human nature, what makes people tick and the best way I can help them solve their problems, so to answer this question since I really don't have any other hobbies or interests, I would say "people" are my other interests.
Thank you for your consideration!
