Dear Mayor and City Council,

The Board of Directors of Downtown Lee's Summit Main Street is in support of the request by Culbertson Property Management for the use of Trex composite siding as part of a multi-tenant dumpster enclosure. We consider this an important pilot project in helping to take the first step in the consolidation of the numerous unenclosed dumpsters in the downtown alleys. We believe this material in its proposed use offers a low maintenance and visually attractive solution that could potentially be a viable solution for other alleyways downtown.

One of the priorities of our organization is to help facilitate and encourage the exploration of our downtown alleys as shared public spaces for events, public art, and additional activities. The consolidation of dumpsters is important in helping make the alleys much more inviting and walkable.

Thank you for your time and consideration of this project.

Yours Truly,

Donnie Rodgers, Jr.
Executive Director
