Employment:Rediscover

Position: Director of Health Care Home

Why interested: I'm a registered nurse with a clinical background in trauma and neuroscience nursing. For the last 12 years, I have worked in ambulatory case management and population health management. During my years as a RN in the Neuro Trauma ICU with Sisters of Mercy, I was active in providing trauma education to adolescents and adults through community outreach with the court system for the city of Springfield, Missouri and teens in Southwest Missouri school districts. I also participated in hospital sponsored community events focusing on prevention and treatment of some chronic diseases. Since moving to this area 18 months ago, I have gained insight into the area's homeless and mentally ill population through my work as Care Progression Manager at St Luke's Hospital and now at Rediscover. I would very much like to become active in community service again and feel that I would bring a wealth of experience to the Health Education Advisory Board.

Other participation: None since moving to the Kansas City area.

Interested in serving on: Health Education Advisory

Other interests: The faith based community and the arts.
