Council District: District 4

How many years a resident: 23

High School: Lee's Summit North

College: University of Central Missouri

Employment: NetStandard inc.

Position: Managed Technology Consultant

Why interested: I am interested in serving on the board because I love Lee's Summit and I feel that I can bring another great perspective in conversations about the growth of our community in many ways. In my broad scope of influence I have always been recognized for my ability to articulate thoughts, feelings, and perspectives in the most positive of ways. As far as qualities and skills, I have always been comfortable with public speaking, constructive criticism, and conflict resolution, all while remaining positive and approaching subject matter in a respectful, caring, and compassionate manner. There has always been something about me that has resonated with others in being trusted, warm, and able to calm people down with kind words and honest understanding. I have a strong moral compass and believe in constructive conversations with meaningful resolutions. My best Quality is that I live my daily life following a belief that I am not better than anyone but I am just as good as everyone, this has served me well throughout the years.

Other participation: Currently I am a member of SCLC, and actively seeking additional service and community organizations to be involved with.

Interested in serving on: Human Relations Commission ,Human Services Advisory Board,Industrial Development Authority ,License Tax Review Committee ,MoDESA,Tif Commission

Other interests: Economic Development
