Streambank Stabilization/Stormwater Management
Amended Scope of Services SW 3rd Street Cedar Creek Culvert
Lee's Summit Project No. 54832272-2C

General Scope of Services

The purpose of this contract amendment is to modify the Four Streambank Stabilization/Stormwater Management project by adding a fifth project called the SW 3rd Street Cedar Creek Culvert Project and combine this project with two others to bid as a separate project from the other two. In general, the additional services shall include:

- 1.1. Additional surveying in order to develop existing site plans that include right of way, utilities, topography, and existing improvements.
- 1.2. Perform hydrology/hydraulic analysis as needed for design of scour improvements to the downstream end of the culvert and toe of roadway on Cedar Creek.
- 1.3. Prepare design drawings to protect end of culvert and toe of roadway slope from scour.
- 1.4. Update the summary of quantities and Opinion of Probable Construction Costs to include the Cedar Creek Culvert improvements.
- 1.5. Prepare Project Manual for SW 3rd Street Cedar Creek, SW 3rd Street Project & SE 2nd Street Project to be bid later in 2019 after the City secures all needed easements.
- 1.6. Assist the City with bidding and Construction Administration Services for Project No. 54832272-2C.
- 1.7. Prepare Record Drawings for Project No. 54832272-1C & -2C from redline drawings provided by City's Contractor.
