Explain why your event matches the criteria you checked above

This event gives our community the opportunity to see our young, artistic students work together in a collaborative manner. At past festivals, it was noticed that individuals come up and ask students questions about the work being created and to see this interaction between young and old is very positive. Student teams will submit ideas and sketches in each building and it is an honor to be chosen to represent your school. The quality of these images incorporates strong craftsmanship and creativity and also promotes the high standards that as a district, we strive for in our 7-12 Art

curriculum. Th organization of this Saturday event is organized by Jeannine Akins, with the support of the 21 art instructors.
