See Exhibit 3 attached hereto.

A land use plan showing proposed uses of the area

The land use plan that is applicable to this Redevelopment Area is the City's Ignite! Comprehensive Plan. The Future Land Use Map of the Comprehensive Plan is attached as Exhibit 6. The Comprehensive Plan will be followed for such decisions, and the Comprehensive Plan may be amended as appropriate to facilitate redevelopment of the Redevelopment Area.

Information showing the standards of population densities, land coverage and building intensities in the area after redevelopment or urban renewal

When redevelopment projects are proposed, the City will evaluate information regarding population densities, land coverage and building intensities, as applicable, associated with such projects. It is likely that a preliminary development plan and final development will be required pursuant to the UDO for each of these projects unless the proposed development is exempt from such requirements pursuant to the UDO.

(C) The parties agree that the construction of the Interchange Project pursuant to this Agreement is contingent upon the Entity completing the construction of the Facility Project. The Entity shall construct the Facility Project no later than February 1, 2024. If the Entity fails to complete the Facility Project prior to February 1, 2024, the Commission is under no obligation to complete work on the Interchange Project. The Commission reserves the right in its sole discretion to delay, suspend or terminate work on the Interchange Project. The Entity agrees to pay all costs incurred by the Commission for the Interchange Project, excluding Commission staff time, including but not limited to Commission costs for preliminary engineering, right-of-way cost, utility costs and construction delays.

(9) PROJECT RESPONSIBILITIES FOR THE INTERCHANGE PROJECT: With regard to project responsibilities under this Agreement, the parties agree to contribute as follows:

(A) The Entity shall be responsible for preliminary engineering. This includes preparation of the detailed construction plans and project specifications, the solicitation and contract management for the design consultant, the environmental review, and right-of-way plans and utility coordination, if needed. The plans shall be prepared in accordance with and conform to Commission requirements and follow the Local Public Agency (LPA) process. Said plans shall not be changed in concept or scope without prior written approval of the Commission.

(B) The Entity shall acquire right-of-way in accordance with Commission requirements and in doing so agrees that it will comply with all applicable federal laws, rules and regulations, including 42 U.S.C. 4601-4655, the Uniform Relocation Assistance and Real Property Acquisition Act, as amended and any regulations promulgated in connection with the Act. If utility relocations are needed, the Entity shall be responsible for coordinating utility relocations.

(C) The Commission will assist with project management for preliminary engineering. The design consultant and Entity shall work directly with the Commission's Kansas City (KC) District Project Manager to ensure the project meets purposes and need, schedule, intended scope and budget. The KC District Project Manager will provide an example of scope of services and review and provide recommendations for approval of the final scope of services. The Commission will provide representatives to assist with scoring for the consultant.

(D) The Commission will provide preliminary engineering review and right-of-way review.

(E) The Commission will be responsible for letting the work for the Interchange Project which includes advertising the project for bids and awarding the

construction contract. The Commission will solicit bids for the project in accordance with plans developed by the Entity and approved by the Commission.

(G) The Entity shall provide the survey and legal descriptions required for the conveyances of Blue Parkway from the Commission to the Entity . The survey and legal descriptions shall be submitted with the design plans.

(A) The Interchange Project cost is currently estimate at twenty one million nine hundred nine thousand fifty seven dollars (\$21,909,057) and will include preliminary engineering, preliminary engineering review, right-of-way acquisition, right-of-way review, right-of-way incidentals, utilities, construction and construction engineering . The details of the estimated cost breakdown are listed below and in "Exhibit B", which is attached hereto and made part hereof.

(B) The Entity shall be responsible for forty five percent (45%) of the Interchange Project cost. The current estimate of the Entity's responsibilities is nine million eight hundred ninety-eight thousand twenty-eight dollars (\$9,898,028). The Entity shall receive a credit for preliminary engineering, right-of-way acquisition, right-of-way incidentals and utility costs paid by the Entity currently estimated at four million five hundred ninety-five thousand six hundred sixty-five dollars (\$4,595,665). Upon the Commission's receipt of documentation of actual cost incurred and paid by the Entity towards the Entity's share of the preliminary engineering, the amount to be deposited by the Entity hereunder shall be reduced by the amount of the credit described in the foregoing sentence, specifically the amount of four million five hundred ninety-five thousand six hundred sixty-five dollars (\$4,595,665). As a result of the credit for the preliminary engineering, right-of-way acquisition, right-of-way incidentals, and utility costs, the Entity shall remit a check in the amount of five million three hundred two thousand three hundred sixty-three dollars (\$5,302,363) to cover estimated construction and inspection costs no later than five (5) days prior to the Commission's advertisement of the project for bids. The check should be made payable to the *Missouri Highway and Transportation Commission – Local Fund*. If the Entity fails to make any of the required deposits, the Commission is under no obligation to continue with the Interchange Project.

(C) The Commission will pay for fifty-five percent (55%) of the Interchange Project, not to exceed twelve million eleven thousand and twenty nine dollars (\$12,011,029). Of this amount, the Commission will provide ten million, seven hundred five thousand, four hundred and seven dollars (\$10,705,407. from the Commission's Cost Share program, of which, three million eight hundred forty-four thousand, seven hundred

and eighty-five dollars (\$3,844,785) is available in State Fiscal Year 2022, four million eight hundred sixty thousand six hundred and twenty-two dollars (\$4,860,622) is available in State Fiscal Year 2023, and two million dollars (\$2,000,000) is available in State Fiscal Year 2024. The remaining one million three hundred five thousand six hundred twenty-two dollars (\$1,305,622) will be funded from the operating budget and the Statewide Transportation Improvement Plan (STIP) budget.

(D) The Entity shall be responsible for the balance of the Interchange Project in excess of twenty one million nine hundred nine thousand fifty seven dollars (\$21,909,057). The Entity shall be responsible for any overruns.

(E) If, at the time of the letting, the lowest responsive bid is higher than the estimated construction cost amount, the Entity, upon written notification from the Commission shall remit a check in the amount of its share of the difference between the estimated amount and the lowest responsive bid no later than one (1) day prior to the date of the Commission meeting wherein the subject bid will be considered for award or a later date set by the Commission in its sole discretion. In the event the Commission, in its sole discretion, extends the day the Entity payment is due, it shall notify the entity of the new due date in writing, which shall be binding immediately upon the Entity's receipt of the written notice. The check must be made payable to the *Director of Revenue – Credit Local Fund*. The Commission, in its sole discretion, reserves the right to take action at the said Commission meeting and either reject all bids if the Entity fails to make the payment by the due date, or award the contract to the lowest responsive bidder contingent upon receipt of the additional funds from the Entity by the extended due date. If the Commission makes a contingent award of the contract and the Entity fails to make the required deposit(s) by the extended due date, the contingency of the contract award by the Commission shall be deemed unsatisfied, the award of the contract shall be deemed null and void and the Commission shall be under no obligation to continue with the project.

(F) The Entity agrees to review the bids for purposes of awarding the Commission's construction contract. If the lowest responsive bid is greater than five percent (5%) above the engineers estimate, then the Commission may not award said construction contract unless the Entity concurs in such award. The Entity shall provide concurrence within three (3) business days of the bid opening by the Commission. Failure of the Entity to respond within three (3) business days of the bid opening by the Commission shall be construed as concurrence by the Entity.

(11) COMMINGLING OF FUNDS: The Entity agrees that all funds deposited by the Entity, pursuant to this Agreement with the Commission, may be commingled by the Commission with other similar monies deposited from other sources. Any deposit may be invested at the discretion of the Commission in such investments allowed by its Investment Policy. All interest monies shall be payable to the *Local Fund* and credited to the project. If the amount deposited plus any applicable credited interest with the Commission shall be less than the actual obligation of the Entity for this project, the Entity, upon written notification by the Commission, shall tender the necessary monies to the Commission to completely satisfy its obligation. Upon completion of the Interchange

project, any excess funds or interest credited to the Entity shall be refunded to the Entity based on its pro rata share of the investment.

(12) COMMISSION RIGHT OF WAY: All improvements made within the state-owned right-of-way shall become the Commission's property, and all future alterations, modifications, or maintenance thereof, will be the responsibility of the Commission.

(13) VENUE: It is agreed by the parties that any action at law, suit in equity, or other judicial proceeding to enforce or construe this Agreement, or regarding its alleged breach, shall be instituted only in the Circuit Court of Cole County, Missouri.

(15) NO INTEREST: By contributing to the cost of this project or improvement, the Entity gains no interest in the constructed roadway or improvements whatsoever. The Commission shall not be obligated to keep the constructed improvements or roadway in place if the Commission, in its sole discretion, determines removal or modification of the roadway or improvements, is in the best interests of the state highway system. In the event the Commission decides to remove the landscaping, roadway, or improvements, the Entity shall not be entitled to a refund of the funds contributed by the Entity pursuant to this Agreement.

(16) AUTHORITY TO EXECUTE: The signers of this Agreement warrant that they are acting officially and properly on behalf of their respective institutions and have been duly authorized, directed and empowered to execute this Agreement.

(17) SECTION HEADINGS: All section headings contained in this Agreement are for the convenience of reference only and are not intended to define or limit the scope of any provision of this Agreement.

(18) ADDITIONAL FUNDING: In the event the Commission obtains additional federal, state, local, private or other funds to construct the improvement being constructed pursuant to this Agreement that are not obligated at the time of execution of this Agreement, the Commission, in its sole discretion, may consider any request by the Entity for an off-set for the deposited funds, a reduction in obligation, or a return of, a refund of, or a release of any funds deposited by the Entity with the Commission pursuant to this Agreement. In the event the Commission agrees to grant the Entity's request for a refund, the Commission, in its sole discretion, shall determine the amount and the timing of the refund. Any and all changes in the parties' financial responsibilities resulting from the Commission's determination of the Entity's request for a refund pursuant to this provision must be accomplished by a formal contract amendment signed and approved by the duly authorized representative of the Entity and the Commission.
