**PART I**  
**SCOPE OF SERVICES**

The City of Lee's Summit is seeking proposals from qualified contractors to provide Repair Services for Water Distribution System, Waste Water Collection System, and Stormwater collection system infrastructure as a yearly contract for the Water Utilities and Public Works Operations Divisions. These jobs are generally in response to system failures requiring an immediate response to minimize property loss or environmental damage and are generally expected to be of short duration. Additional repair jobs may include those for which the Operations Divisions do not have immediate access to appropriate equipment or available resources to complete the work in a timely manner.

This contract may be awarded to more than one contractor to ensure resources are available when they are needed, thereby providing the most prompt service as possible to the community and minimizing the impact upon vendor's resources. Jobs to be assigned to vendors will be identified by Operation's Management.

Contractors are required to begin mobilization activities upon notification by Operation's Management of a condition, given time to assess the scope of work and an appropriate set of equipment and personnel to complete the work. Because this work involves the repair of buried infrastructure, the scope of each job may not be entirely known until work commences. All repairs will be subject to the standards outlined in the City of Lee's Summit's Design and Construction Manual, Ordinance 5813.

Jobs will always be to repair an infrastructure defect or failure to its original configuration and will not include system upsizing or configuration changes. The focus of each job will be to mitigate a failure in a system and return the work site to a safe condition or to complete a job for which the Operations Divisions do not have appropriate equipment or available resource. This may include the backfill and compaction of an excavation and to restore a temporary driving surface or eliminate a hazard. It does not include the restoration of final paved surfaces, curbing, drives, landscaping, or other property. That work will generally be completed through the appropriate Operations Division.
