PROPERTY OF MUTUAL MATERIALS

In an effort to reduce waste, please do not remove pieces from this sample.
These samples are examples of the various brick and glazed brick colors available through Mutual Materials. Colors tend to vary somewhat from run to run.
To ensure your satisfaction, please inspect current stock and examine the product delivered to your project prior to the installation of your new brick.
Contact your representative for individual samples.

www.MutualMaterials.com

coal creek

These samples are examples of the various brick colors available through Mutual Materials Company. Because brick are produced from natural materials, brick colors tend to vary somewhat from run to run. To ensure your satisfaction, please inspect current stock and examine the product delivered to your project prior to the installation of your new brick.

TUBELITE®

DEPENDABLE

LEADERS IN ECO-EFFICIENT STOREFRONT,
CURTAINWALL AND ENTRANCE SYSTEMS

We offer an option for recycled aluminum on selected extruded products with an industry leading content of post-consumer and pre-consumer material.

Anodized Finishes

Standard Painted Colors – 70% PVDF

NOTE: Colors shown are not exact and are intended for planning purposes. For actual job, Tubelite® will supply Linetec color chips.

Finish Color Guide Chart

Depend on Tubelite® for detailed information on the performance, integrity, and weatherability of anodized finishes, and for specifications on the color retention, erosion resistance, and gloss retention of painted finishes.

Finish Colors					
	AAMA Code	Code Performance	Content	Applicable Warranty	Tubelite® Colors Available
ANODIZED	611	Anodized aluminum provides and maintains a superior level of performance in terms of film integrity, exterior weatherability, and general appearance for many years. KEY Co = Color Retention
 Ch = Chalk Resistance
 Gl = Gloss Retention
 Er = Erosion Resistance

SS = Salt Spray
 Hu = Humidity
 = Tubelite Standard Color Palette

NOTE Class I = Minimum 0.7 mil thickness
 Class II = Minimum 0.4 mil thickness
 ✓ = Extended Warranty Available (Contact Tubelite Inc.)

Eco-Friendly Finishes

Beyond being compliant, Tubelite's sister company Linetec captures and destroys the Volatile Organic Compounds (VOCs) present in solvent-borne paints during the finishing process. 100% of the solvents are captured from the painting operations, and destroyed with a \$2 million "oxidizer", which burns the VOC's at 1500 degree heat, converting them to harmless water vapor. In doing so, our liquid-paints are just as VOC-free to the environment as powder or waterborne paints.

At Linetec's anodize operations, the process does not use heavy metals or toxins and is environmentally friendly. Anodized aluminum is 100% recyclable and uses simple water-based chemistry that can be treated easily and releases no harmful by-products. Linetec's voluntary commitment to a clean and healthy environment goes well beyond industry standards or regulatory requirements.

UNRIVALED.

COLOR CHARTS

Command attention to the entrance of your structure with a variety of standard and premium Kynar colors available for your architectural canopy. Mapes aluminum non-rusting finish has a much longer life span as compared to the typical field painted finishes used on typical structural steel canopies. Due to the differences between monitors and various computer platforms, the colors shown here are only an approximation of the actual color available.

Due to the differences between monitors and various computer platforms, the colors shown here are only an approximation of the actual color available.

Give the colors a try with our [Color Preview Tool](http://mapescanopies.com/color-preview-tool/) (<http://mapescanopies.com/color-preview-tool/>).
