

Microsoft 365

Microsoft 365 – Enterprise

SCOPE

Microsoft 365 is a subscription service that brings the latest Office desktop apps together with cloud apps and services such as storage, security, collaboration, and productivity.

Microsoft 365 - Security

M365

Azure Active Directory

Microsoft Intune

Cloud App Security

Focus on scope around core
business capabilities

Strive for "One Source of Truth"

SCOPE

Microsoft 365 pulls upon the security aspects of the Microsoft security stack which include Azure Active Directory; Cloud App Security, Microsoft Intune,

Partners/Vendors

01.

SHI / Microsoft

Utilizing CO-OP agreement for providing Microsoft Subscription Services through SHI as the Microsoft Reseller.

02.

ConvergeOne – C1

Utilizing COOP agreement for Implementation Professional Services.

Microsoft 365

Microsoft 365 is more than familiar productivity apps, such as Microsoft Office applications. It is a resilient, reliable cloud infrastructure, replacing locally stored servers and legacy infrastructure.

Features

Productivity Apps

- Word
- Excel
- PowerPoint
- Outlook
- OneNote
- Publisher

Security & Management

- Cloud access security broker
- Identity and access management
- Endpoint and app management
- OnPrem Active Directory Sync for Single Sign On

Storage

- Cloud storage
- OneDrive
- SharePoint Online

Collaboration & Reporting

- Teams
- Power BI
- SharePoint

Improvements

Security

Information Protection Email Encryption and Data Encryption

Endpoint and App Management

Threat Protection

On-premise Active Directory sync for Single Sign On

Multi Factor Authentication

Cloud access security broker

Identity and access management

Data Loss Prevention

Productivity and Collaboration

Added Features

Enhances productivity by providing access to a suite of productivity apps

Cloud File Storage
SharePoint
OneDrive

Full web, mobile, and desktop access to Microsoft Office apps

Real-time collaboration features; seamless teamwork platform for file sharing and collaboration

Cost Offset After Going to M365

Future to be Replaced

Current Products Used

- Office Standard
- Office Professional
- Vault
- Spam Filter
- Email Signature
- File Share Storage
- Form Survey
- Password Reset
- MDM
- SCCM (reduction of licenses)
- SummitUP
- Password Reset
- Sophos Antivirus
- Zoom

- HR
- Time Tracking
- Recruiting
