

SPECIAL USE PERMIT PROCESS

Purpose of Special Use Permit

Some land uses (such as car dealerships, junk yards, and telecommunication towers) are only permitted upon the approval a Special Use Permit (SUP) for the specific use at a specific location. Table 6-1 of the Unified Development Ordinance lists uses that require a special use permit and shows the zoning districts in which such a permit may be considered. A new land use that is not listed in the zoning ordinance may also be considered through the Special Use Permit process. Special use permits are generally approved for a specific period of time, and are subject to renewal upon expiration. The renewal process is similar to the initial approval process.

The purpose of the public hearing process is to make sure that the proposed use is appropriate at the proposed location and compatible with existing or planned uses on the surrounding properties. The Planning Commission and City Council will consider any concerns that surrounding property owners or members of the general public may have regarding the proposed development and its impact on the community.

Step 1 – Pre-Application Meeting

The UDO requires the applicant to meet with City Staff at a “pre-app” meeting prior to submitting an application. Staff members include representatives from Development Services, Public Works, Traffic Engineering, Fire, and Parks. An exchange of information early in the process can often make the rest of the development go more smoothly. The purposes of the pre-application meeting are:

- **Applicant** - The applicant can explain the proposed development and present any sketches or plans. Detailed plans are not required, but the more information brought to the meeting, the more thorough and specific staff can be in response.
- **Staff** - City staff will advise the applicant of:
 - Land use considerations, including compatibility with the Comprehensive Plan and adjacent land uses
 - Procedural requirements for submitting an application and going through the appropriate process
 - Site design regulations, including setbacks, parking, screening, traffic, and others
 - Building code regulations
 - Special studies required, such as traffic, storm water, etc.
 - Public sources of information that may aid the applicant
 - Policies that may create opportunities or pose significant restraints

Step 2 – Filing the Application

The applicant must submit the following items to the Development Services Department:

- **Application** - A complete application for preliminary development plan, including all items identified in the Submittal Requirements checklist.

SPECIAL USE PERMIT PROCESS

- **Drawings** – The proper number and type of drawings, including site plan, landscape plan, building elevations and civil engineering plans. These include full-size and reduced drawings, **as well as an electronic copy.**
- **Checklists** - Completed checklists. See UDO Article 2 for the preliminary development plan application contents and submission requirements.
- **Fees** - Application filing fee and legal notice publishing charge, payable to the City of Lee's Summit - see Schedule of Fees and Charges. Two legal notices are required for a preliminary development plan application. A single payment covering the application fee and legal notice charge may be accepted. An application may be withdrawn at any time upon written request; however, no refund will be made after the initial publication.
- **Deadline** - All information must be submitted by the deadline date. Items will be placed on the Planning Commission agenda based upon the completeness of the application submittal. All additional information to support the application must be submitted by the deadline. The application will be delayed if information is missing or is not submitted by the deadline date.

Step 3 – Neighborhood Meeting

One neighborhood meeting is required for each application, which must occur within the initial 10 day review period and prior to re-submission of the application. More than one neighborhood meeting may be held on an application, at the option of the applicant.

- **Timing and Location:** Within two miles of the project site, Monday through Thursday, excluding holidays; and start between 6:00 P.M. and 8:00 P.M. If a location for the meeting is not available within [2] miles of the subject property, the applicant shall select a location outside this area that is reasonably close to these boundaries.
- **Notification** shall be sent by certified mail or delivered to property owners within 300 feet of the project site. Mailed notices shall be postmarked at least seven days prior to the meeting. Hand deliveries must occur at least five days prior to the meeting.
- **Notes:** The Applicant shall take sufficient notes at the neighborhood meeting to recall issues raised by the participants, in order to report on and discuss them at public hearings before City governmental bodies on the application. The notes shall be turned in with the application re-submittal.

Step 4 – Development Review Committee (DRC)

The Development Review Committee is a staff-only committee consisting of 10 to 15 representatives of various city departments and divisions that reviews each item on the agenda, and identifies relevant issues. The development departments then prepare written comments for the applicant, which will be sent to all parties listed on the application form (via fax or email) on the Friday before the Tuesday Applicant's Meeting. A Project Manager will be assigned as the project lead on each application.

SPECIAL USE PERMIT PROCESS

Step 5 – Applicant's Meeting

The applicant is required to attend an Applicant's meeting:

- **Staff** - City staff will provide a technical review of the submitted plans and request any necessary plan revisions.
- **Applicant** - The applicant will have an opportunity to ask questions.
- **Timeline** - Staff will provide a timeline for the rest of the process. If extensive changes are required or more information is needed to adequately review the application (e.g. additional traffic or engineering studies), the application may be rescheduled to a later Planning Commission meeting date to allow time for the necessary work to be completed. If deficiencies are minor, the item will be scheduled for a Planning Commission meeting, subject to revised plans being submitted by the Revised Plans Due date.

This meeting is *not* the appropriate forum to discuss policy issues or negotiate any agreements. If an application involves policy issues or items that may be resolved through a development agreement, the Lead Planner will schedule a separate meeting with appropriate City staff.

Step 6 – Notices and Posting of the Property

- **Notice in Newspaper** – City staff will prepare and publish the required legal notice of the time and place of the public hearings, which must be published 15 days prior to the hearing in an official City paper.
- **Letters to Surrounding Property Owners** – The applicant must mail notices by certified mail, to all property owners within 300 feet of the property, at least 15 days prior to the hearing, notifying them of the opportunity to be heard. A form letter for the notice can be obtained from the Development Services Department. An affidavit must be submitted certifying that notice has been sent, along with a list of property owners and a copy of the letter sent.
- **Sign** – The applicant must post a sign on the premises at least 15 days prior to the date of the hearing, informing the public of the time and place of the public hearing. The City will furnish the sign to the applicant for posting. The applicant shall make a good faith effort to maintain the sign for at least 15 days immediately preceding the date of the hearing through the hearing, and through any continuances of the hearing. The sign shall be placed within 5 feet of the street right-of-way line in a central position on the property. The sign shall be readily visible to the public. If the property contains more than 1 street frontage, 1 sign shall be placed on each street frontage so as to face each of the streets. The sign may be removed at the conclusion of the public hearing and must be removed at the end of all proceedings on the application or upon withdrawal of the application.

Step 7 – Planning Commission Public Hearing

The Planning Commission consists of nine (9) appointed citizens who meet on the second and fourth Thursday of each month in the Council Chambers of City Hall at 220 SE Green Street. All meetings are televised on the local cable television government channel.

SPECIAL USE PERMIT PROCESS

The Commission holds a public hearing on each preliminary development plan application and makes a recommendation to the City Council.

- **Applicant's presentation** - The applicant begins the public hearing with a presentation, which should include a brief description of the proposed project and a response to any concerns raised in the staff report. Visual presentations shall be:
 - In electronic format - on a laptop, CD ROM, DVD, or flash drive. The City's presentation system can support Word, Excel, Power Point, Adobe, Windows Media Player and Internet Explorer applications.
 - Reduced drawings for use on the Document Camera to display on the screen. Presentation boards will not be allowed, as they cannot be seen by the audience.
 - Samples of building materials (samples are required to be brought to the meeting or submitted in advance, and shall be retained by the City); and any additional information which the applicant wishes to bring to the meeting (for example, color renderings, maps, photographs, or petitions). *(It is recommended that any additional information be provided to staff in advance, so it can be included in the Commissioner's packets.)*
- **Staff's presentation** - Staff will then give a staff report and recommendation.
- **Public comments** – members of the audience will be given an opportunity to speak. If issues or concerns are raised by the public, the applicant is typically given an opportunity to respond.

Commission discussion and decision - The Commission members may ask questions of either staff or the applicant. Finally, the public hearing portion of the meeting is closed, and the Planning Commission discusses the action that should be taken and the reasons for that action. The Planning Commission's action is a recommendation to the City Council to either approve, approve with conditions, or deny the application. The Planning Commission may also vote to continue an application to a later meeting to allow further study or the submission of information by the applicant or staff. Once the Planning Commission has made a recommendation, a hearing (typically three weeks later) will be scheduled before the City Council.

Step 8 – City Council Public Hearing

The Lee's Summit City Council holds public hearings at their regular meetings on the first and third Tuesdays of each month at the Council Chambers of City Hall at 220 SE Green Street.

- **Public Hearing** - The format of the public hearing is similar to that used by the Planning Commission and applicants should plan on making a similar type of presentation. After the City Council has listened to the presentations and to any public comments, they will discuss the application and then take action. The City Council will either reject the request or direct staff to prepare an ordinance granting the zoning change.
- **Ordinance** - The ordinance is normally read at a subsequent City Council meeting and approved or denied.

My Commission Expires:

In considering a special use permit application, the Planning Commission and City Council will give consideration to the criteria stated below to the extent they are pertinent to the particular application. (See UDO Section 6.650.)

1. Character of the neighborhood.
2. Compatibility with adjacent property uses and zoning.
3. Suitability of the property for which the special use is being requested.
4. Extent to which the proposed use will negatively impact the aesthetics of the property and adjoining properties.
5. Extent to which the proposed use will injure the appropriate use of, or detrimentally affect, neighboring property.
6. Impact on the street system to handle traffic and/or parking.
7. Impact of additional storm water runoff to the existing system or to the water shed area if no storm sewer is available.
8. Impact of noise pollution or other environmental harm.
9. Potential negative impact on neighborhood property values.
10. Extent to which there is need of the proposed use in the community.
11. Economic impact upon the community.
12. Extent to which public facilities and services are available and adequate to satisfy the demand generated by the proposed use.
13. Comparison of the benefit gained to the public health, safety and welfare of the community if approved versus the hardship imposed upon the landowner if the requested application is denied.
14. Conformance to the UDO and current city policies and ordinances.
15. Recommendation of professional staff.
16. Consistency with permitted uses in the area in which the special use is sought.

SPECIAL USE PERMIT EXPLANATION

In addition to the special use permit criteria, special conditions relate to the operation of certain uses. From Article 6 of the UDO, list the special conditions that relate to the requested use. Explain **IN DETAIL** how this application meets each of the special conditions. **Failure to complete each will result in an incomplete application.**

The cell tower at 1850 SE Hamblen Rd. has been a longstanding fixture in the community, existing for over 20 years.

This established presence highlights its compatibility with the character of the neighborhood, which has adapted to and integrated the tower into its landscape. The adjacent property uses and zoning have coexisted harmoniously with the tower, demonstrating its suitability and minimal impact on the surrounding area. Over the years, the tower has shown minimal aesthetic impact, as it has become a familiar part of the local landscape. Its design and placement ensure that it does not detract from the area's visual appeal. The tower has not harmed the proper use of neighboring properties or negatively affected them, as indicated by the ongoing development and functionality of adjacent properties.

The long-standing presence of the cell tower underscores its significance in meeting the telecommunications needs of the community. It has positively influenced the local economy by enhancing wireless connectivity. Public facilities and services have effectively supported the tower's operations, and it has consistently adhered to the Uniform Development Ordinance and city policies. Renewing the special use permit further solidifies the tower's ongoing operation, emphasizing its compliance with permitted uses in the area. Furthermore, the tower supplies crucial wireless connectivity for residents, businesses, and first responders, ensuring reliable communication and safety for the community.

In evaluating the special use permit application, the Planning Commission and City Council should consider the cell tower's established role in the community. Its compatibility with the neighborhood, minimal aesthetic impact, and positive influence on the local economy demonstrate its suitability for continued operation. The tower's adherence to city policies and its importance in addressing telecommunications needs further reinforce the renewal of the special use permit, ensuring it continues to benefit the community without negatively affecting neighboring properties.

SPECIAL USE PERMIT CHECKLIST

Submittal Requirements	Yes	No*
Completed special use permit application form with signatures	X	
Ownership Affidavit form	X	
Legal description	X	
Filing fee – See Development Services Fees under the Schedule of Fees and Charges found at www.cityofls.net .	X

LEGAL DESCRIPTION

EXHIBIT "A"

Tower Area / Lease Area:

A 2,080 square foot area surrounding a tower and equipment built pursuant to the Ground Lease
being more particularly described as follows:

A TRACT OF LAND LOCATED IN SECTION 17, TOWNSHIP 47 NORTH, RANGE 31 WEST, JACKSON COUNTY, MISSOURI, MORE PARTICULARLY DESCRIBED AS FOLLOWS:

BEGINNING AT A POINT 174.39 FEET WEST AND 922.29 FEET SOUTH OF THE EAST QUARTER CORNER OF SAID SECTION 17;
THENCE, S87°50'17"E, 40.00 FEET;
THENCE, S02°09'43"W, 52.00 FEET;
THENCE, N87°50'17"W, 40.00 FEET;
THENCE, N02°09'43"E, 52.00 FEET, TO THE POINT OF BEGINNING.

CONTAINING 2,080.00 SQUARE FEET, MORE OR LESS.

Access and Utility Area:

20' ACCESS/UTILITY EASEMENT:

A STRIP OF LAND 20 FEET WIDE BEING 10 FEET ON EACH SIDE OF THE FOLLOWING DESCRIBED CENTERLINE LOCATED IN SECTION 17, TOWNSHIP 47 NORTH, RANGE 31 WEST, JACKSON COUNTY, MISSOURI, MORE PARTICULARLY DESCRIBED AS FOLLOWS:

COMMENCING AT THE SOUTHEAST CORNER OF THE ABOVE DESCRIBED EASEMENT TRACT;
THENCE, N02°09'43"E, 15.00 FEET, TO THE POINT OF BEGINNING;
THENCE, S87°04'06"E, 64.05 FEET, TO A POINT ON THE WEST RIGHT-OF-WAY LINE OF HAMBLER ROAD FOR A TERMINUS.

2025 STRUCTURAL INTEGRITY LETTER

Bradley E. Byrom, P.E., S.E.
Senior Project Engineer
Tower Assets - Engineering

May 14, 2025

Subject: Structural Integrity Letter

Crown Castle Designation:

BU Number: 877759
Site Name: LEMONE

Site Data:

1850 SE Hamblen Rd., Lee's Summit, Jackson County, MO
Latitude 38° 53' 8.50", Longitude -94° 21' 35.30"
180 Foot – Self Support Tower

This letter is to attest to the structural integrity of the above-mentioned site based on the Structural Analysis Report by Crown Castle dated November 29, 2023. The antenna and cable loading used in the analysis was confirmed to be in general conformance with the current configuration. Therefore, the referenced Structural Analysis Report is valid and the tower structure and foundation are sufficient.

This letter also attests to the fact that, to the best of our knowledge, the tower structure operated by Crown Castle and located at the address referenced above has been installed and maintained in accordance with the manufacturer's specifications, is in good condition, does not have any missing or corroded members, and meets the requirements of the building code.

The TIA-222 Standard that governs telecommunication tower structures provides recommendations related to regular inspection and maintenance of the structures. Crown Castle has a robust inspection and maintenance plan in place that exceeds the recommendations of TIA-222 and includes:

- biennial ground-based inspections (GBI)
- visual inspections during each carrier equipment installation
- post tower modification installation inspections supervised and sealed by a registered Professional Engineer
- rigorous climbed (TIA) inspections: guyed masts (3 yrs.), self-supporting structures (5 yrs.) and monopoles (7 yrs.)

Crown Castle trains and certifies inspectors and has numerous internal standards and procedures in place to ensure that issues are identified and reported. Structural issues that are identified during an inspection which require engineering review are directed to Crown Castle Engineering to be reviewed by registered design professionals.

The last climbed TIA inspection and GBI inspection was performed on May 16, 2024. There are no unresolved structural issues or deficiencies that were identified during these inspections. The next ground-based inspection is scheduled for April 11, 2026, and the next TIA inspection is scheduled for May 16, 2029.

In conclusion, the referenced tower structure is regularly inspected for structural and non-structural issues. Based on the preceding information and to the best of our knowledge, the referenced tower presents no safety issues to the general public or the adjacent properties.

If you have any questions or concerns, please don't hesitate to contact me.

Sincerely,

Bradley E. Byrom, P.E., S.E.
Senior Project Engineer

SITE INSPECTION REPORT

Site ID: 877759 > Site Name: LEMONE

Site Inspection [Read Only](#)Inspection Type: ☐ Ground ☐ Incident ☐ Due Diligence Download Date: Apr 11 2023

Inspection Frequency: 12 MONTHS Inspection Due Date: Jun 30 2023

Inspection Date: Apr 11 2023 Legally Obligated: Yes

Inspector: Emily McCampbell

Assigned TSA:

Access Road Gates [Read Only](#)

1. Are the access road gates in acceptable condition? ☒ Yes ☐ No
2. Confirm access road gate provides adequate barrier and easily swings clear of traffic lane.
3. Confirm lock is in good working condition and properly lubricated.
4. Confirm access road gate signage is present if compound signage is not legible.
5. Other Condition (please describe)

Access Road

1. Is the access road/vegetation acceptable? ☒ Yes ☐ No
2. Vegetation along shoulder inhibiting vehicular passage.
3. Natural or manmade debris creating a safety hazard to vehicular traffic.
4. Natural or manmade debris encroaching on Crown lease space.
5. Confirm access road is in good operable condition.
6. Passable, capable of providing safe access to the compound.
7. Free of restrictions to flow of water along drainage ditches, culverts and head walls.
8. Other Condition (please describe)

Compound Signage

1. Is the signage present and legible? ☒ Yes ☐ No
3. No Trespassing
4. Crown Marketing
5. Razor Wire (if applicable)
6. RF Exposure
7. Tripping Hazard
8. Confirm RF Caution is present at the climbing face or ladder.
9. Rooftop Only: Confirm presence RF Warning sign in addition to applicable signs above.
10. Other Condition (please describe)

Compound/Site Vegetation

1. Is the compound/site vegetation acceptable ☒ Yes ☐ No
2. Confirm the landscaping (if present) is in acceptable condition.
3. Free from threat of damage to equipment / compound from any dead vegetation (i.e. dead trees).
4. Free from vegetation growing on fence to an area of 2 ft. minimum beyond the fence.
5. Utility equipment free from excessive vegetation.
6. Grass growth in grass compounds kept to minimum 4 in. height to a distance of 2 ft. beyond the fence.
7. Confirm acreage under Crown responsibility is maintained per LL and / or local zoning as required.
8. Is the frequency and scope of the current vegetation control plan acceptable?
9. Other Condition (please describe)

Tower Compounds

1. Does the compound provide safe access to equipment and tower? ☒ Yes ☐ No
2. Confirm compound is free of abandoned equipment, construction remnants, trash, tree limbs and excessive amount of leaves.
3. Confirm Crown lease space is free of debris or material from neighboring property.
4. Confirm aggregate surfaces are free of standing water, mud and soil.
5. Other Condition (please describe)

Compound Fences and Gates

1. Is the compound fence and gate performing as barrier and devoid of any security breaches? ☒ Yes ☐ No
2. Confirm space beneath fence and compound surface does not pose a security risk.
3. Confirm fence post foundations are not exposed, unless originally intended.
4. Confirm lock is in good working condition and properly lubricated.
5. Confirm all components (wood, galvanized framing, barbwire, etc.) are in good working order and performing as a barrier to entry.
6. Other Condition (please describe)

Grounding [Read Only](#)

1. Are all grounding connections in acceptable condition? ☒ Yes ☐ No

2. Confirm at least one ground lead exists on all monopoles and guyed towers.
 3. Confirm each leg of a SS tower is grounded (one ground lead per leg).
 4. Confirm grounding wires, without conduit, which pass through foundations or grout do not have obvious signs of a lightning strike near or around the point of entry into the foundation or grout.
 5. Confirm Tower Structure is grounded with a mechanical or cad-weld connection that reads 5 ohms or less.
- Site Grounding System Resistance Checks: (4 checks required)**

Type Ohms
Dropdown box reflects order of priority for reading location

Tower	.23	
Tower	.22	
Tower	.15	
Customer Bus bar	.14	

Average 0.185 Ohms

6. Confirm all mechanical grounds are free of gross corrosion and are coated with an anti-corrosive compound such as Koper-shield.
7. Confirm all lighting and monitoring systems are properly grounded, absent of 90 degree turns, use of proper two lug connection and free of corrosion.
8. Confirm Crown bus bars are present and free of any obvious gross corrosion.
9. Other Condition (please describe)

Chem Rods

Structure (A)

Are Chem Rods present? ☒ Yes ☐ No

Chemical Rod Counts: 2 Contained 0 Non-Contained

1. Confirm chem rods are in good operable condition.

☒ No Action ☐ Priority Action Required ☐ Routine Action Required ☐ Repaired ☐ NA

Description:

2. Other Condition (please describe)

☒ No Action ☐ Priority Action Required ☐ Routine Action Required ☐ Repaired ☐ NA

Description:

Tower Structure

[Cathodic Protection Instructions Document](#)

Structure (A)

What type of cathodic protection is present? None

Inspection Ports and Shelters [Read Only](#)

Shelter Inventory Form

Is there a Crown maintained or Cingular Shelter on site? ☐ Yes ☒ No

Utilities [Read Only](#)

1. Are utilities in good operable condition? ☒ Yes ☐ No
2. Confirm all shelter or equipment room items are in good operable condition: (Doors, locks, latches, lights, flooring, fire extinguisher, stairs, ladders, handrails, roofs, hatches, etc.)
3. Confirm customer owned utilities are in good operable condition and devoid of gross deficiencies.
4. Other Condition (please describe)

Tower Lighting, Marking and Monitoring [Read Only](#)

Structure (A)

Is tower Lighted? ☐ Yes ☒ No (Note: Tower is lighted if Controllers are added.)

Tower Lighting

Structure (A)

Tower Marking

Structure (A)

This section applies only if Tower Painting is required.

Tower Monitoring

Structure (A)

1. Monitoring System Verification?

☐ Yes ☒ No

Confirmation Number:

Confirm no leaks or spills

IDOwnerLeaks/SpillsTicket #Comment

Ground Space Identification

1. Is the data below accurate including available ground space within compound? ☒ Yes ☐ No

Ground Space Details

Leased Area

ID	Use	Tenant	Length	Width	Construction Type
----	-----	--------	--------	-------	-------------------

Migratory Bird Details [Read Only](#)

Structure (A)

1. Are there currently any nests observed on the tower? ☐ Yes ☒ No

Bird Nests On Structure A

Nest Observed on Date of Inspection	Inspection Date	Height of Nest	Occupied at time of Inspection	Species	Date Discovered
☐ Yes ☒ No	Apr 11 2023	182.0	☐ Yes ☒ No	(TBD)	Apr 22 2021

Tower Structure - General [Read Only](#)

Structure (A)

1. Confirm the overall tower structure is in a safe, regulatory and operable condition, with no obvious defects or signs of distress

☒ No Action ☐ Priority Action Required ☐ Routine Action Required ☐ Repaired ☐ NA

Description:

2. Confirm AM Detuning Kit is in good operable condition.

3. Confirm the tower is visually plumb and free of excessive twist.

4. Confirm the tower connections are visually free of missing bolts or other connection devices, unusual movement and misalignments.

☒ No Action ☐ Priority Action Required ☐ Routine Action Required ☐ Repaired ☐ NA

Description:

5. Other Condition (please describe)

☒ No Action ☐ Priority Action Required ☐ Routine Action Required ☐ Repaired ☐ NA

Description:

Tower Structure

Structure (A)

Is the Tower Tag present? ☒ Yes ☐ No

Tower Tag Data

Manufacturer:	ANDREW
Model:	LST
Drawing/Serial #:	LI-96811

Stealth Tower

Structure (A)

This section applies to Stealth Towers only.

Corrosion

Structure (A)

1. Confirm no gross corrosion exists on the tower components (legs, cross members, anchor bolts, guy wire and guy anchors).

☒ No Action ☐ Priority Action Required ☐ Routine Action Required ☐ Repaired ☐ NA

Description:

2. Confirm leg drain holes in hollow tower legs at the tower base are open for drainage and display no evidence of rust scale collecting inside the tower leg? (Guyed/Self Support Towers)

☒ No Action ☐ Priority Action Required ☐ Routine Action Required ☐ Repaired ☐ NA

Description:

3. Other Condition (please describe)

☒ No Action ☐ Priority Action Required ☐ Routine Action Required ☐ Repaired ☐ NA

Description:**Appurtenances****Structure (A)**

1. Confirm (visually) all antennas, dishes & cover, mounts, sleds, and shields are securely attached to the tower and /or rooftop

☒ No Action ☐ Priority Action Required ☐ Routine Action Required ☐ Repaired ☐ NA

Description:

2. Confirm the safety climb device and climbing facilities are visually free of obvious defects and obstructions. (of the climbing facilities; Including installed anchorages, tie-off hardware and posted "Safety Climb Warning Sign")

☒ No Action ☐ Priority Action Required ☐ Routine Action Required ☐ Repaired ☐ NA

Description:

3. Confirm all coax visually appear securely attached to the tower and or rooftop

☒ No Action ☐ Priority Action Required ☐ Routine Action Required ☐ Repaired ☐ NA

Description:

4. Other Condition (please describe)

☒ No Action ☐ Priority Action Required ☐ Routine Action Required ☐ Repaired ☐ NA

Description:**Foundations****Structure (A)**

1. Confirm the foundation is free of major cracking ($\geq 1/16$), has no exposed rebar, does not appear to have cracks that pass through the anchor bolts and / or does not impact the base plate.

☒ No Action ☐ Priority Action Required ☐ Routine Action Required ☐ Repaired ☐ NA

Description:**Crack Monitor Details**

MonitorPositionPrevious ReadingCurrent Reading

2. Confirm there is no standing water on or around foundation which adversely affects the grout or anchor bolts.

☒ No Action ☐ Priority Action Required ☐ Routine Action Required ☐ Repaired ☐ NA

Description:

3. Other Condition (please describe)

☒ No Action ☐ Priority Action Required ☐ Routine Action Required ☐ Repaired ☐ NA

Description:**Guy Point Components****Structure (A)**

This section applies to Guyed Towers only.

Guy Anchor Compound and Fencing**Structure (A)**

This section applies to Guyed Towers only.

Light Duty Tower**Structure (A)**

This section applies to Light Duty Towers only.

Baseplate Procedure [Read Only](#)**Structure (A)**

Base Plate Dimensions - Measure and Record Base Plate Dimensions

(A) Base Plate Thickness: 1.75 in

(B) Fastening Nut Size (leveling or top nut): 1.25 in

(C) Distance from top of Foundation (concrete) to bottom surface of Baseplate (steel): 3.75 in

Connection Type (Monopole only):

Number of Sides: 3

Number of Anchor Rods: 18

Locking Device Type: Double Nut

Baseplate Fasteners

Structure (A)

1. Confirm all fasteners are at least handtight, locking devices/torque lines exist for all anchor rods and are in proper condition and leveling nuts are snug and flush to bottom of baseplate.

☒ No Action ☐ Priority Action Required ☐ Routine Action Required ☐ Repaired ☐ NA

Description:

2. Confirm appropriate amount of anchor rod revealing above the nut.

☒ No Action ☐ Priority Action Required ☐ Routine Action Required ☐ Repaired ☐ NA

Description:

3. Confirm the existence of an anchor rod nut locking device or torque line.

☒ No Action ☐ Priority Action Required ☐ Routine Action Required ☐ Repaired ☐ NA

Description:

4. Other Condition (please describe)

☒ No Action ☐ Priority Action Required ☐ Routine Action Required ☐ Repaired ☐ NA

Description:

Baseplate Exterior

Structure (A)

1. Confirm there are no toe cracks at the top of the weld bead.

☒ No Action ☐ Priority Action Required ☐ Routine Action Required ☐ Repaired ☐ NA

Description:

2. Confirm there are no cracks in heat affected zone (HAZ)

☒ No Action ☐ Priority Action Required ☐ Routine Action Required ☐ Repaired ☐ NA

Description:

3. Confirm there are no weld cracks (e.g. baseplate to shaft, gusset plate to shaft / baseplate, etc.) in heat affected zone (HAZ).

☒ No Action ☐ Priority Action Required ☐ Routine Action Required ☐ Repaired ☐ NA

Description:

4. Confirm there are no weld voids.

☒ No Action ☐ Priority Action Required ☐ Routine Action Required ☐ Repaired ☐ NA

Description:

5. Confirm there are no incomplete welds.

☒ No Action ☐ Priority Action Required ☐ Routine Action Required ☐ Repaired ☐ NA

Description:

6. Confirm there is no baseplate corrosion.

☒ No Action ☐ Priority Action Required ☐ Routine Action Required ☐ Repaired ☐ NA

Description:

7. Confirm there is no missing / worn galvanize coating.

☒ No Action ☐ Priority Action Required ☐ Routine Action Required ☐ Repaired ☐ NA

Description:

8. Other Condition (please describe)

☒ No Action ☐ Priority Action Required ☐ Routine Action Required ☐ Repaired ☐ NA

Description:**Baseplate****Structure (A)****Questions 1 - 3 are related to buried towers only****4. Confirm anchor rod is free of corrosion and damage**

☒ No Action ☐ Priority Action Required ☐ Routine Action Required ☐ Repaired ☐ NA

Description:**5. Confirm condition of grout**

☒ No Action ☐ Priority Action Required ☐ Routine Action Required ☐ Repaired ☐ NA

Description:**6. Confirm weep holes are clear of debris and there is no retained water in shaft or legs and that the structure drains freely.**

☒ No Action ☐ Priority Action Required ☐ Routine Action Required ☐ Repaired ☐ NA

Description:**7. Other Condition (please describe)**

☒ No Action ☐ Priority Action Required ☐ Routine Action Required ☐ Repaired ☐ NA

Description:**Guy Cable Tension** [Read Only](#)**Structure (A)****This section applies to Guved Towers only.****Inspection Report - General Comments** [Read Only](#)**General Comments:**

Site is in good condition. Unable to capture tower photos from BC & CA Faces due to terrain.

Previous Inspection Comments:

Inspection Date: 2023-04-11

Comment: Site is in good condition. Unable to capture tower photos from BC & CA Faces due to terrain.

Inspection Date: 2022-06-08

Comment: Site is in good condition. Updated Utilities Tab. FOT processed Cricket's DECOM App while on site. Unable to capture tower photos of BC & CA Faces due to terrain. Hawk's nest appears to still be on the tower and occupied as there was a hawk squawking while FOT was on site.

Inspection Date: 2021-04-22

Comment: Site is in good condition. Updated Utilities Tab. Cricket's Decom Date is May 31, 2022. FOT observed a hawk and a nest sitting on Sprint's platform at 182'. Lower Access Road Gate is being addressed under NOC Ticket 2999640.

Inspection Date: 2020-05-11

Comment: Site is in good condition. Updated Utilities Tab. SELF-PERFORM: FOT sent an email to CM Nakkar inquiring about the hole that was discovered behind the new utility frame seeing if he had any knowledge of the issue. Will update ticket once ticket evolves. SELF-PERFORM: FOT emailed CM Nakkar requesting he review how Sprint's lines are attached towards the top of the tower (chain and carabiner). Will update ticket as it evolves.

Inspection Date: 2019-04-03

Lemone 1850 SE Hamblen Rd. Lee's Summit, MO 64086

Subject: Structural Analysis Report

Carrier Designation: T-Mobile Co-Locate
Site Number: A5C0661A

Crown Castle Designation: BU Number: 877759
Site Name: Lemone
JDE Job Number: 748747
Work Order Number: 2233945
Order Number: 652434 Rev. 0

Engineering Firm Designation: Morrison Hershfield Project Number: CN6-048R4 / 2300001

Site Data: 1850 Se Hamblen Rd., Lee's Summit, Jackson County, MO 64086
Latitude 38° 53' 8.5", Longitude -94° 21' 35.3"
180 Foot - Self Support Tower

Morrison Hershfield is pleased to submit this "Structural Analysis Report" to determine the structural integrity of the above-mentioned tower.

The purpose of the analysis is to determine acceptability of the tower stress level. Based on our analysis we have determined the tower stress level for the structure and foundation, under the following load case, to be:

LC5: Proposed Equipment Configuration

Sufficient Capacity

This analysis has been performed in accordance with the 2018 International Building Code based upon an ultimate 3-second gust wind speed of 109 mph. Applicable Standard references and design criteria are listed in Section 2 - Analysis Criteria.

Why Crown Castle – Site Safety

State & Federal Compliance

- EPA, FAA & FCC
- In-house legal team dedicated to compliance issues

Safety

- Yearly ground-based inspections
- Structural inspection per industry standards
- Incident Response & Disaster Recovery Program

Network Operations Center

- Open 24/7
- Monitors critical systems
- Responds to network outages
- Calls answered by live representatives

Thank you
