RE: KA-Comm.,Inc. is a Authorized Installer of Motorola Solutions In-Car Video Products for Lee's Summit PD, MO. and in the KC Metro area.

Motorola Solutions, Inc. (Motorola) appreciates the opportunity to provide KA-Comm, Inc. as the preferred and only company in the metro KC area as the authorized installer of our In-Car Video products (4RE/M500) for Lee's Summit PD, and in the KC metro area. .

Our In-Field Video Recording Solutions

V300 Body-Worn Camera – With a rugged exterior and evidence-quality security, the V300 features a detachable battery that can be easily switched out during long shifts. That battery, along with a 128GB storage capacity, solves the battery life and storage dilemmas faced when implementing body-worn cameras. A clear LCD display on the top of the camera allows easy viewing of device status, and the camera offers a natural field of view that eliminates fisheye effects while being adjustable to accommodate a range of body-worn positions.

VISTA WiFi and XLT Body-Worn Cameras – Our Vista body-worn cameras offer simple operation and HD recording in multiple form factors. The VISTA WiFi integrated camera offers a lens that can rotate 40° for optimal aiming from any mounting location, and a back-lit LCD that displays battery level, recording status, and storage space. The VISTA XLT provides a two-piece form factor with a camera that can be mounted on the body, or on the head for point-of-view recording.

M500 In-Car Video – The M500 is a purpose-built powerful ALPR and video analytics platform designed not just to capture video evidence but to keep you safer and more efficient in the moment. M500 display's intuitive user interface makes it simple to operate, with no function more than three taps away, and even if your vehicle is in a serious collision, the system can switch to a built-in UPS to continue capturing evidence for those vital extra seconds. The front camera is able to capture panoramic and focused views simultaneously, save footage of critical incidents in high resolution, and routine events in lower resolution to enable automatic storage management per individually configured retention policy, so you never have to compromise between quality and efficiency.

4RE In-Car Video – The 4RE panoramic camera features two heads —one camera with a 68° field of view that can be aimed where needed, the other with pillar-to-pillar panoramic coverage. The 4RE's patented multiple resolution encoding allows officers to save footage of critical incidents in HD, and routine events in lower resolution. This feature makes high definition practical by eliminating the painful compromise between video quality and file storage needs—effectively giving your agency HD video at SD cost.

Wireless Microphone – Used with 4RE In-Car Video, the Wireless Hi-Fi microphone delivers high-fidelity audio and superior building penetration capabilities. It is manufactured according to Motorola transmitter specifications, and uses intelligent standby and a lithium polymer battery to provide up to 24 hours of talk-time and up to 30 days of standby time.

Body-Worn/In-Car Integrated Recording System – When deployed together, our body-worn cameras and 4RE (or M500) can form an integrated system that simplifies your officer’s operational and administrative workflows. Once one camera in the system is activated or triggered, every camera in the system will begin recording. This ensures that incidents are captured from multiple vantage points, with video and audio that is synced and automatically tagged with GPS and time-stamp data. Footage can be managed in-vehicle through a touchscreen interface or in-car computer before uploading via WiFi or LTE to your digital evidence management system.

Motorola Solutions is the exclusive and sole manufacturer of the M500 and the 4RE Digital In-Car Video Systems, the High-Fidelity Wireless Microphone System, and the V300 and Vista wearable camera systems. These products are represented and sold by Motorola and its certified resellers and manufacturers representatives via direct or applicable national, state or regional contracts. Those contracts allow customers to purchase Motorola products under the terms of those contract agreements. The Body Camera Systems include “No-Fault Warranties” and Motorola is the only company able to provide warranties and maintenance for the above-mentioned products.

We look forward to working with you to develop a customized, integrated solution that meets your specific needs and provides you with the most value for your investment. To move ahead with this process, we invite you to contact Account Manager Name, Account Manager Title at Account Manager Phone, Account Manager Email. We thank you for your attention to this letter, and we look forward to working with you to develop and implement a solution that meets your needs.

Sincerely,

Gavin Wallace
