Interest Response: I've served on the Water Utilities Advisory Board since inception and on the on the Water Tap Tee committee since 1999 prior to the formation of WUAB. This committee evaluates and recommends water and sewer tap fees as well as water and sewer use rates through a very extensive and complex analysis that is performed on an annual basis. Knowledge of historical capital improvements as well as planned improvements over the next 20 years are critical elements that calculate into the recommendations each year to the city council. As a developer in Lee's Summit for the past several decades and by serving on the Planning Commission for 10 years, TIF commission, BZA, Charter Commission, EDC, LS Chamber, John Know Village and Lee's Summit Education Foundation, I bring a very unique perspective to the committee not only as a resident and business owner but someone with a proven commitment to the success and sustainability of our community.

Other Activities: See above.
