Environmental Data Resources, Inc. (EDR) Aerial Photo Decade Package is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's professional researchers provide digitally reproduced historical aerial photographs, and when available, provide one photo per decade.

Search Results:

<u>Year</u>	<u>Scale</u>	<u>Details</u>	<u>Source</u>

The Sanborn Library has been searched by EDR and maps covering the target property location as provided by Terracon were identified for the years listed below. The Sanborn Library is the largest, most complete collection of fire insurance maps. The collection includes maps from Sanborn, Bromley, Perris & Browne, Hopkins, Barlow, and others. Only Environmental Data Resources Inc. (EDR) is authorized to grant rights for commercial reproduction of maps by the Sanborn Library LLC, the copyright holder for the collection. Results can be authenticated by visiting www.edrnet.com/sanborn.

The Sanborn Library is continually enhanced with newly identified map archives. This report accesses all maps in the collection as of the day this report was generated.

EXECUTIVE SUMMARY

DESCRIPTION

Environmental Data Resources, Inc.'s (EDR) City Directory Report is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's City Directory Report includes a search of available business directory data at approximately five year intervals.

RECORD SOURCES

The EDR City Directory Report accesses a variety of business directory sources, including Haines, InfoUSA, Polk, Cole, Bresser, and Stewart. Listings marked as EDR Digital Archive access Cole and InfoUSA records. The various directory sources enhance and complement each other to provide a more thorough and accurate report.

EDR is licensed to reproduce certain City Directory works by the copyright holders of those works. The purchaser of this EDR City Directory Report may include it in report(s) delivered to a customer.

RESEARCH SUMMARY

The following research sources were consulted in the preparation of this report. A check mark indicates where information was identified in the source and provided in this report.

DEPARTMENT OF NATURAL RESOURCES

DIVISION OF ENVIRONMENTAL QUALITY

P.O. Box 176 Jefferson City, MO 65102-0176

June 13, 2000

Mr. Eric J. Meidenbauer
City of Lee's Summit
Public Works Department/Engineering Division
3 SE Third Street
Lee's Summit, MO 64063

RE: City of Lee's Summit Fire Department, 207 SE Douglas, Lee's Summit, MO
ST0004174, R0006374

Dear Mr. Meidenbauer:

The Tanks Section of the Hazardous Waste Program has received and reviewed the February 22, 2000, Site Check and Preliminary Site Investigation report submitted by Burns & McDonnell for the above referenced site.

Based upon a review of the analytical data and other information submitted, the department finds that no additional investigation or remedial action is currently required with regard to these petroleum substances. However, the department's finding is based solely on the information contained in these reports, and this finding does not constitute a certification or guarantee of the quality of the remedial action conducted or with regard to the lack of contamination on the property.

In the event a future petroleum-related environmental problem arises near this property, the department reserves the right to require responsible parties to conduct additional investigation and/or remedial actions.

If you have any questions regarding this letter, you may contact Mr. Hugh Murrell of my staff at (573) 751-6822.

Sincerely,

HAZARDOUS WASTE PROGRAM

Jim Gowney, Chief
Remediation Unit

No Further Action Letter

RE: Fire Station #1, 207 Southeast Douglas, Lee's Summit, Jackson County, MO –
ST0004174, R009516

Dear Mark Stinson:

Congratulations on the completion of this underground storage tank (UST) closure project! The Missouri Department of Natural Resources' Environmental Remediation Program, Tanks Section, thanks you for your efforts to responsibly address the permanent closure of:

- UST ID#1, a 4,000-gallon, fiberglass, diesel fuel UST
- UST ID#2, a 4,000-gallon, fiberglass, gasoline UST.

The Department has reviewed the Missouri Risk-Based Corrective Action (MRBCA) Closure Report dated May 20, 2020, submitted by SCS Engineers for the above referenced facility. The closure report evaluates risks to human health and the environment resulting from a possible petroleum release from the tank system during its operation and summarizes corrective actions taken to address those risks.

The closure report indicates SCS Engineers adequately evaluated these risks and the closure requirements for the tank listed above, using MRBCA non-residential target levels.

Based upon a review of the site information and the closure report, the Department has determined that 'No Further Action' is required regarding the chemicals of concern evaluated in the environmental site assessment conducted during the permanent closure of the tanks at this site.

Please be aware that 10 CSR 26-2.080(3)(B) provides: "if subsequent information becomes available to indicate that contamination may be present at the site at levels which may threaten human health or the environment, the Department may require additional investigation or site characterization and/or corrective action."
