REVISED JULY 2021

**Application #PL2024327 – Special Use Permit Extension for  
953 SE Oldham Parkway**

**Comprehensive Narrative Description of the Use Sought – UDO Sec. 6.630.**

On September 1, 2005, the Lee's Summit City Council passed Ordinance No. 6036 approving a Special Use Permit to operate a self-storage mini-warehouse facility (the "Facility") for 20 years on the property located at 953 SE Oldham Parkway (the "Property") in Lee's Summit. For the past 20 years, the Facility has operated on the Property. The Applicant is requesting an extension of the existing Special Use Permit for a period of 25 years to continue operations of the Facility on the Property.

StorageMart, the operator of the Facility, is committed to high-quality customer service and to operating the Facility in a first-class manner. The Facility has .5 employees, an entry office, gated access with a keypad, and 331 well-kept storage structures. The storage structures are typically finished with tan metal siding, a green metal seam roof and green doors. The management office is open 9:30 am – 6:00 pm, Monday to Friday, and 9:30 am – 3:00 pm on Saturday. The storage units are accessible via the secure gate 6:00 am to 10:00 pm daily.

StorageMart is the largest privately held self-storage owner/operator in North America. With its focus on and dedication to its internal motto, "Easy, Clean, Service," StorageMart has been able to create a customer experience that is second to none. StorageMart is proud to offer multiple facilities with many different unit sizes and amenities in the Lee's Summit community, which serves the variety of needs seen in today's growing market.

The extension of this Special Use Permit on the Property will service existing demand in the market without the need for developing a new piece of land.

**Special Use Permit – Criteria for Consideration – UDO Sec. 6.650(B).**

**1. Character of the neighborhood.**

*Applicant Response:* The neighborhood includes commercial and industrial businesses along SE Oldham Parkway. Immediately to the east of the property is an auto/tire center, to the west is a building products facility, to the southeast is residential, and to the southwest is a Planned Industrial District. The Facility is located in the Planned Industrial District.

**2. Compatibility with adjacent property uses and zoning.**

*Applicant Response:* The existing use is compatible with the other developed uses in the vicinity. The zoning designation of adjacent properties is CP-2 to the east and west, RP-3 to the southeast, and Planned Industrial District to the southwest.

**3. Suitability of the property for which the special use is being requested.**

*Applicant Response:* The Property has been used as the Facility for approximately 20 years, is in a commercial corridor, and therefore is suitable for its continued use.

**4. Extent to which the proposed use will negatively impact the aesthetics of the property and adjoining properties.**

*Applicant Response:* The existing use was aesthetically designed to be compatible with neighboring properties.

**5. Extent to which the proposed use will injure the appropriate use of, or detrimentally affect, neighboring property.**

*Applicant Response:* The proposed extensions of the use will continue the existing long-term use of the Facility on the Property and not affect the use of or access to any neighboring properties.

**6. Impact on the street system to handle traffic and/or parking.**

*Applicant Response:* Self-storage in general has a low vehicle trip-generation impact. This Facility has been in operation for approximately 20 years. No expansions to the Facility are proposed so there is no anticipated change in traffic.

**7. Impact of additional storm water runoff to the existing system or to the water shed area if no storm sewer is available.**

*Applicant Response:* No additional storm water run-off will occur with the extension of the Special Use Permit.

**8. Impact of noise pollution or other environmental harm.**

*Applicant Response:* Extension of the Special Use Permit will not cause any additional noise or environmental impact. To the Applicant's knowledge, no complaints have been made regarding negative secondary effects associated with the existing Facility.

**9. Potential negative impact on neighborhood property values.**

*Applicant Response:* To our knowledge, the Facility has had no negative impact on neighborhood property values.

**10. Extent to which there is need of the proposed use in the community.**

*Applicant Response:* The Facility has maintained continued occupancy and use for 20 years, demonstrating the market demand and need for the use.

**11. Economic impact upon the community.**

*Applicant Response:* Continuation of the use will generate property and sales tax commensurate with the Property's use.

**12. Extent to which public facilities and services are available and adequate to satisfy the demand generated by the proposed use.**

*Applicant Response:* All necessary facilities and services are already available on site.

**13. Comparison of the benefit gained to the public health, safety and welfare of the community if approved versus the hardship imposed upon the landowner if the requested application is denied.**

*Applicant Response:* Continuing the existing use serves a demand in the community and will cause no negative impact on the neighborhood. If the request is denied, a viable income generating and tax paying business will need to be demolished.

**14. Conformance to the UDO and current city policies and ordinances.**

*Applicant Response:* The Property and the Facility conform to the UDO and current city policies and ordinances.

**15. Recommendation of professional staff.**

*Applicant Response:* TBD.

**16. Consistency with permitted uses in the area in which the special use is sought.**

*Applicant Response:* The proposed extension of the Special Use Permit will result in continued and consistent use of the existing Facility on the Property which is now and will continue to be compatible with the surrounding properties.

**Special Use Permit Conditions – UDO Sec. 6.1020 – Mini-warehouse facility.**

**A mini-warehouse facility shall be subject to the following conditions and restrictions:**

**A. In any non-industrial district, a mini-warehouse facility must be enclosed on all sides by a wall or earthen berm that shields the development from view.**

*Applicant Response:* This condition does not apply as the zoning of this tract is PI – Planned Industrial District.

**B. Colors selected must be of muted shades.**

*Applicant Response:* The existing Facility colors consist mostly of muted shades. These colors consist primarily of tan metal siding.

**C. Roof pitch shall be 1:3.**

*Applicant Response:* Not applicable – existing, previously approved structures.
