6. Roundtable

Councilmember Prier mentioned a recent power outage in the Downtown Lee's Summit area and pointed out that the outages happen quite often. Evergy informed her that the cause is due to the power grid being overloaded, and also the above ground power lines. Evergy workers told her it is Lee's Summit's responsibility to address that issue. Mr. Park, Director of Public Works, acknowledged that some of the issue may be above ground, but he agreed that the power grid is not built for its current demands. It is being overloaded, which is resulting in the power outages. He stated that it is not the City's responsibility to ensure that Evergy's power grid and infrastructure is built to manage the growth of our community. Mr. Park explained that Evergy is involved in the City's development process during which time the developers coordinate their power demands with various utilities. It is up to Evergy, the owner of the utility, to manage that growth in a way to prevent these kinds of brownouts and blackouts. Councilmember Prier asked what the City can do. Mr. Park mentioned potentially getting involved with the Missouri Public Service Commission. He noted that Evergy has organized their rate structures and funding to make system improvements, and the City could look at supporting those. Recently, Evergy has conducted upsizing and improvements to some of the substations located in Lee's Summit, but the City cannot control the prioritizing of Evergy's projects.

Councilmember Prier asked about the plan for litter along I-470 Hwy. Mr. Park said this plan is part of a much broader legislative item to support funding to agencies such as MODOT who would like to contract more litter control and clean up of their highway system. This item to help support MODOT is one of three legislative priorities. Councilmember Prier asked if more could be done on a local level such as having Police write tickets for littering. Mr. Park stated that there were several strategies being pursued on a local level. One local program is Sweep the Summit. Additionally, there has been increased enforcement for uncovered loads as well as looking into prosecutorial strategies such as community service.

7. Adjournment
