6. Roundtable

Councilmember DeMoro asked when the Processing Facility will be open at the Public Disposal Area. Michael Park, Director of Public Works, stated the contractor is working on plans, development of the site, and working through the MDNR permit process. Updates with contractors indicate they may be ahead of schedule.

Mark Dunning, Assistant City Manager, stated that concerning the last item on the agenda, in pursuing the funding opportunities staff will need a resolution from City Council supporting the pursuit of that. A Resolution will be on the City Council agenda when this item moves forward. It is a part of the application process showing the governing body supports the application.

Chairman Felker invited the committee to request education items needing presentations moving forward. He has had conversations with staff of possible presentations over the next few months.

Councilmember Prier stated Stormwater Management in Downtown Lee's Summit is something she'd like more information about. Michael Park responded with the need for an update regarding the Stormwater Utility. The delivery for stormwater recommendations are scheduled for after the first of the year, but a presentation to introduce that to newer committee members would be beneficial. Another presentation will be an overview of the Pavement Management program, with an emphasis on the curb program and the rating and conditions process. Other presentations of interest should be forwarded through Chairman Felker or directly to staff.

7. Adjournment

The June 13, 2022, Public Works Committee meeting was adjourned by Chairman Felker at 5:38 p.m. at City Hall, 220 SE Green Street, City Council Chambers.
