

FY2023-2037 Apparatus Lease Purchase Program and Financing Proposal

Vehicle Equipment Replacement Plan (VERP)

Established to save funds annually for vehicles/apparatus based on a formula for each vehicle type, to allow for replacement at the end of its determined life cycle utilizing the funds saved.

Proposal

Convert from our current Vehicle Replacement Program (VERP) philosophy to a Hybrid Lease/VERP Program

Pros

Proposed Lease/Cash Purchase of FD Apparatus/Vehicles

Uniformity to Fleet

- Eliminate ongoing workload of design
- Financial Savings Allowing the ability to expand in today's dollars

- Decreased vulnerability by increased availability of reserve units
- Allows for improved fleet management (equalize mileage)
- Fleet wide consistent safety features, layout of equipment providing greater interoperability for personnel
- Decreased training demands (only 1 apparatus versus 7)

- Decreased training of Central Vehicle Maintenance Techs
- Parts stock ability (same parts across fleet)
- Eliminates concerns of future EPA mandates effecting Diesel motors
- St p
- Still allows use of HGAC for procurement method

Cons

Proposed Lease/Cash Purchase of FD Apparatus/Vehicles

Optics/Perception of other city depts

Decreases annual financial flexibility, i.e. wouldn't allow us to delay a purchase

Future Interest rates

Potential transitional loss of value of recently purchased apparatus

Lack of technology improvements during the term of the lease purchase

Current VERP Compared to Hybrid Lease/VERP
