Interest Response: While on the Livable Streets Advisory Board I have been able to listen, learn, research, and give input on various topics that have come to the board. Whether it be discussions on Vision Zero or mobility policy, or advocating livable street recommendations on projects within the city. Trail connections, sidewalks, bike lanes, education, policy, and other avenues are some of the tools that the City of Lee's Summit and the Livable Street Advisory Board have in their pockets to continually push the city forward into the future. With the reorganization of the board to the Wellness Commission, I look forward to adding a mental health emphasis to the planning and living in Lee's Summit for the community and visitors. Wellness is an overarching term that the initial commission will have a large role shaping to guide our healthy community into the future.
