Subject: 24-25 CDBG Application

Thank you for the opportunity to submit an application for funding through the Community Development Block Grant. Truman Heritage Habitat for Humanity is requesting up to \$300,000 in funding to complete home rehabilitation services for 15-20 qualifying Lee's Summit households.

The average project cost will range between \$10,000 and \$15,000 in construction expenses. This home repair service will be provided for qualifying households in Jackson County, MO within the city limits of Lee's Summit, MO. 100% of applicants for this program will be at or below 80% area median income (AMI). To support this program, we are asking for at least 25% of the total award to be designated to eligible administration and program costs. This will go towards staff time and operational costs such as business insurance, marketing, permits, and fuel/vehicle maintenance.

Truman Heritage Habitat for Humanity was formed in 1989 and initially focused on new home construction for low-moderate income households in Eastern Jackson County. Over the last several years, that focus has shifted to providing home weatherization, repair and rehabilitation services to low-moderate income households with an AMI less than 80%. Funding for these services has largely come City of Independence HOME and CDBG programs, Mid-America Regional Council, City of Raytown, Federal Home Loan Bank, and area energy utilities.

We look forward to favorable consideration of the attached Lee's Summit CDBG application. Through our work in local communities, we have found a great need for the home rehabilitation services that CDBG funding supports. We hope to continue this vital partnership with the City of Lee's Summit and its citizens.

Please do not hesitate to contact me or Carla Simpson, Chief Operating Officer, should you have any questions or need more information.

Detailed Description of the Project for Which Funds are Requested (Continued from Page #2):

The project is based on the Habitat for Humanity International (HFHI) Home Preservation Program model which provides needed repairs for low to moderate income households. Truman Habitat is an affiliate of HFHI. Truman Habitat's FY 24/25 project will be a continuation of last year's Lee's Summit CDBG funded program and will provide 12-15 low-moderate income owner-occupied households with home repairs that will improve the safety, affordability and sustainability of the Lee's Summit homeowner and family.

Offered services will include roof repairs and replacements, hazardous tree removals, HVAC, insulation, exterior trim/siding, paint, brush clean-up, collapsed sewers and other critical home repairs deemed acceptable by City and meeting the consolidated plan. In some instances, volunteers may be used to assist with the repairs, however generally speaking, these projects will need to be performed by licensed specialists due to the urgency and risk involved. Based on recent history, it is anticipated that project costs for roofs will range between \$7,000 - \$15,000, and that hazardous tree removal projects will range between \$1,500 - \$8,000. Other project costs will vary from project to project depending on the scope of work needed. The actual number of households to be served is dependent on actual project costs associated with approved applications. Truman Habitat will continue to work with Lee's Summit City CDBG staff to assure that the household, specific address, and proposed home repairs qualify for CDBG funded services and specific proposed home repairs address the specific problems and address weatherization needs for each site.

If Continuing Project, Describe Briefly how it has been Financially Supported in Recent Years? (Continued from Page #2):

In 2022, the City of Lee's Summit awarded \$125,500 in CDBG funding to Truman Habitat to perform 12-15 home repair projects for eligible households. Truman Habitat is in the final phase of completing this project and expects to expand all awarded CDBG funds and meet home repair goals. In 2023, the City of Lee's Summit awarded \$145,225 in CDBG funding to Truman Habitat to perform 12-15 home repair projects for eligible households. Truman Habitat will begin this project in March 2024.

SECTION III --- Project Budget

Please print clearly and make sure all blanks are completed unless instructed otherwise.

The City's CDBG funds are extremely limited as compared to needs and should always be considered as a SECONDARY resource to help fill a program/project's budgetary gap. Applying agencies must demonstrate that all efforts have been made to leverage other resources for the program before CDBG funding is considered.

Please use the following table to provide itemized listing of known and expected costs and their associated funding sources. Please round all amounts to the nearest hundred. Per HUD regulations and OMB Circulars, majority of construction projects must be procured, which requires open competition and prevailing wage. Procurement normally incurs additional costs for required project design or specification information and advertising. So please take those costs into consideration when filling out the following charts.

SECTION IV --- Agency Capacity Assessment and Project Management System

Please print clearly and make sure all blanks are completed unless instructed otherwise.

Appropriate level of capacity of an agency is key to the success of carrying out a program funded with Federal grants. This includes the agency's management structure, administrative system and establishment, financial resources, financial and accounting systems and prior experience with as well as performance in running Federal grant programs. History has proven that a lack of appropriate capacity to comply with all the Federal regulations and requirements governing the CDBG program can jeopardize the program. Please use this page to assess your agency's capacity and explain how the program/project you are requesting CDBG funding for will be carried out. To assist your assessment, you are required to read HUD's Playing By the Rules manual (viewable and downloadable at <https://www.hudexchange.info/resource/687/playing-by-the-rules-a-handbook-for-cdbg-subrecipients-on-administrative-systems/>) The City reserves the option to conduct its own assessment of your agency's capacity before making a recommendation for funding.

Construction projects almost exclusively require detailed specifications of the product/project and/or engineering design of the work to be done at procurement stage. Though applicants are not required to bear unnecessary cost burdens for a complete professional service done before grant funds are secured, they are encouraged to gather as much accurate information as possible about the product/project to be included with the application in order to help the City with its evaluation of the request.

SECTION V --- Certifications

Please print clearly and make sure all blanks are completed unless instructed otherwise.

I certify that, to the best of my knowledge, all the information provided in this application, including all the additional information attached, is true and complete. I further certify that my agency has fully and accurately analyzed the needs and has exhausted all its resources in its effort to identify and secure other funding for this program. I understand that the City's CDBG funding is limited and should be directed to high priority programs and projects and this application should not be considered as a guarantee that CDBG funding will be granted for this program. I further understand that CDBG funded activities must be carried out within the existing City Limits of the City of Lee's Summit, Missouri.

Truman Heritage Habitat for Humanity, Inc.

(Name of Agency Requesting CDBG Funding) certifies that it will provide the services as described herein, if CDBG funding is granted, and agree to adhere to all relevant Federal, State and local regulations and other requirements as established by the City of Lee's Summit.

I certify that my agency has reviewed HUD's Playing By the Rules manual (viewable and downloadable at <https://www.hudexchange.info/resource/687/playing-by-the-rules-a-handbook-for-cdbg-subrecipients-on-administrative-systems/>) and fully understands its responsibility for significant records tracking and reporting requirements and for all necessary adjustments to the agency's management and operation procedures so that they are in compliance.

Detailed Justification of the Need (Continued from Page #2):

MA-25 Public and Assisted Housing- 91.210(b) AP-60 Public Housing - 91.220(h) AP-55 Affordable Housing 91.220(9)

Meeting LSHA 5-Year Plan Objectives and Consolidated Plan Objectives, as well as National CDBG Objectives - Benefiting LMI Elderly/Disabled Public Housing Residents - LMI Housing Rehabilitation of Permanent Housing.

The Lee's Summit Housing Authority receives limited funding the U.S. Department of Housing and Urban Development each year for Capital improvements. Each year, LSHA undergoes a Uniform Physical Conditions Standards Inspection according to protocol established by the HUD Real Estate Assessment Center (REAC). Inspection results along with information from maintenance work-orders and tenant complaints is used as a basis for developing our 5-Year Plan for modernization and capital improvements. All identified work items are evaluated using data on expected life-expectancies from the Uniform Residential Rehabilitation Guide.

Our projects list as identified in our 5-Year Plan are prioritized and included in an environmental review previously conducted in FY-2021, FY-2022 and FY-2023. The plan includes necessary rehabilitation of the exteriors of the properties, including replacement of all siding, windows, gutters, downspouts and soffit, and front porches at Caloocan Estates. We anticipate the project will be phased as the total project cost estimates are projected to be \$825,000 for all three phases combined. To accomplish this project, LSHA will use Capital Fund Program (CFP) in conjunction with CDBG grant funds over a three-year period. The CFP grant program is the only source of funds HUD provides to Public Housing Authorities to address major capital needs each year CDBG funds are necessary to augment limited HUD funding to allow LSHA to maintain its low-income properties in a manner consistent with community values and commensurate with providing safe, decent and affordable housing for the primarily senior and disabled families we serve. The use of CDBG funds on these projects is consistent with the objectives identified in the City of Lee's Summit

SECTION III --- Project Budget

Please print clearly and make sure all blanks are completed unless instructed otherwise.

The City's CDBG funds are extremely limited as compared to needs and should always be considered as a SECONDARY resource to help fill a program/project's budgetary gap. Applying agencies must demonstrate that all efforts have been made to leverage other resources for the program before CDBG funding is considered.

Please use the following table to provide itemized listing of known and expected costs and their associated funding sources. Please round all amounts to the nearest hundred. Per HUD regulations and OMB Circulars, majority of construction projects must be procured, which requires open competition and prevailing wage. Procurement normally incurs additional costs for required project design or specification information and advertising. So please take those costs into consideration when filling out the following charts.

SECTION IV --- Agency Capacity Assessment and Project Management System

Please print clearly and make sure all blanks are completed unless instructed otherwise.

Appropriate level of capacity of an agency is key to the success of carrying out a program funded with Federal grants. This includes the agency's management structure, administrative system and establishment, financial resources, financial and accounting systems and prior experience with as well as performance in running Federal grant programs. History has proven that a lack of appropriate capacity to comply with all the Federal regulations and requirements governing the CDBG program can jeopardize the program. Please use this page to assess your agency's capacity and explain how the program/project you are requesting CDBG funding for will be carried out. To assist your assessment, you are required to read HUD's Playing By the Rules manual (viewable and downloadable at <https://www.hudexchange.info/resource/687/playing-by-the-rules-a-handbook-for-cdbg-subrecipients-on-administrative-systems/>) The City reserves the option to conduct its own assessment of your agency's capacity before making a recommendation for funding.
