Council District: District 4

How many years a resident: .1

High School: Springfield, Mo

College: Drury University, Springfield, Mo

Employment: Associated Electric Cooperative, Inc.

Position: Database Administrator

Why interested: I have been an avid cyclist for many years in various communities around Missouri. My cycling experience has contributed to my belief that a community's infrastructure should be built for all forms of transportation. Further, safety should play a significant role in developing, promoting, and maintaining an infrastructure that supports pedestrians, cyclists, and drivers. I have personally experienced the dangers of sharing the roads: several years ago I was involved in a vehicle and bicycle related wreck. I fully recovered in weeks, and the accident did not deter me from my love of cycling. My hope in joining Lee's Summit Livable Streets Advisory Board is to assist in the process of strengthening our infrastructure to make it work for the betterment of all community members. As a member of the board, I would bring my experience as a member of the PedNet Coalition in Columbia, Missouri. As a member of the organization, we were able to advocate for the city's adoption of Vision Zero, an initiative to eliminate traffic related fatalities and injuries. The organization also advocated for or against many cycling related proposals at the state government. I participated in many organized events that advocated for mixed mode and active transportation. I look forward to the opportunity to serve on the Livable Streets Advisory Board in my new community. I will be an active member of the board, as well as an advocate around the community whether on foot, on a bike, or in a car. Through participation on the board, I believe I can help make a large impact on Lee's Summit infrastructure for current and future generations.

Other participation: As a new member of the Lee's Summit community, I have limited participation in other community/civic activities at this time. I look forward to developing these relationships in the future as a member of the Livable Streets Advisory Board.

Interested in serving on: Livable Streets Advisory Board
