A. Historic Downtown

1) Not an economic driver and there are other areas of the city that need attention.

professional services, rising property values.

3) Developers choose what areas they want to invest in.

4) A great attraction desired by other cities in the area.

B. The development of quality jobs.

C. The development and maintenance of infrastructure.

D. The definition of blighted areas.

E. Local preference

1) Ask developers to use a percentage of minority, women or disadvantage owned contractors.

2) Require developers to use contractors that train apprentices in the construction trades.

3) Local preference to include contractors, suppliers and services.

Additional Staff comments: Incentives help with the development and maintenance of infrastructure. They will sometimes raise tax revenues, increase revenue from property taxes, address under utilized property, and historic preservation.
