The Business and Industry Tax fund was created to account for the license tax on certain gross receipts of hotels, motels and similar places of business, in an amount equal to 5% of gross daily rental receipts derived from transient guests for sleeping accommodations. The proceeds are used to promote the general economic welfare of the City including attraction and retention of business and industry to the community and the promotion and provision of facilities for tourism, conventions, and visitors. Businesses are allowed to deduct 2% processing fee if their tax is remitted before the 20th of the month.

<u>Revenues:</u> FY20 hotel/motel tax estimate is a 3-year average of FY2016-2018. Revenue projections are based on the fundamentals of fund sources as seasonality and large one-time payments can inject unpredictability into the revenues. Since FY11, the City's General Fund transferred funds to the Business and Industry Fund to prevent a negative fund balance. That transfer was discontinued in FY17.

Expenditures: FY20 assumes the Business & Industry tax will support the expenditures and administration of the fund. The expenditures include the full contribution to Downtown Mainstreet Inc. and Lee's Summit Chamber of Commerce. The FY20 Request includes funding for additional services to be provided by the LS Economic Development Council and Velocity. The fund balance at year end is projected to be 50.6% of total expenditures.

This fund was established to provide compensation to full-time City employees who are incapacitated and who have exhausted all paid time, but are not yet eligible for long-term disability benefits. Beginning July 1, 2009 the short-term disability policy was updated stating all earned time, including vacation and personal, must be exhausted before short-term disability is available. Since the policy change, average claims paid from FY14 through FY18 is \$26,243. The Fiscal Year 2020 contribution rate of \$50 per Full-time Employee experienced no change from the Fiscal Year 2019 contribution rate. The target fund balance is 200% of paid claims.

The Claims and Damages Reserve Fund accounts for expenses associated with liability and property claims. Claims from all City departments up to the City's self insured retention of \$100,000 per occurrence are paid from the fund.

Funding is determined through loss history to cover anticipated claims and damages expenses each budget year. City departments contribute a baseline amount of \$10,000 to the fund annually, which accounts for \$150,000. The remaining amount, currently established at \$150,000, is funded through claims history analysis. Each department with claims history for the past three years is assigned a pro-rata share of the remaining \$150,000. This method assures contribution from all City departments while assessing risk costs appropriately based on actual losses incurred.

This fund was established to account for the monies necessary to self-insure the City's Workers Compensation claims.

The continuing efforts to reduce frequency of claims and contain claim costs through negotiated discounts on medical expenses and using modified duty return to work resulted in lower overall damages and claims expense.Included in expenses is a line item for prior year claim expense. Professional Fees and Administrative Costs include state-required third party administrative fees and expenses for the discounted medical health provider network. The Insurance expense line includes the state required Self-Insurer Bond, Excess Insurance coverage Premium, Worker's Comp Tax and the 2nd Injury Fund Surcharge.

Funding for upcoming and each year premiums (amounts assessed to departmental budgets) are adjusted to bring the fund balance in line with the projected retentions. Premium amount is divided into departments based on prior year's percentage of use (50% of calculation) and percentage of full-time equivalent employees (50% of calculation).

\*Bornhuetter-Ferguson technique estimates ultimate losses using a combination of expected losses (payroll x expected loss cost) and loss development
