Develop a life cycle costing model to be used to make decisions about growth strategies and the impact of the Property Reserve Inc. 4,200- acre proposed development and annexation strategies. Financial management, land use planning and infrastructure planning are connected. Land use is the primary catalyst for local government expenditure and revenue generation. This tool will allow Lee's Summit to move beyond the social and environmental considerations to finance and cost considerations. Project the effect of growth on the City's: 1. Infrastructure; 2. Cost; 3. Revenue; 4. Facilities; 5. Staffing; and 6. Levels of service. Meet with City Project Manager to discuss impact model and potential scenarios to run Collect data from City, County and private sector sources to populate model. Prepare example model elements for approval Create a model to project the effect of growth on the City's Infrastructure, Cost, Revenue, Facilities, Staffing, and Levels of Service. INSURANCE REQUIREMENTS GOVERNING RESPONSES AND SUBSEQUENT CONTRACTS

1. General.

- A. <u>Insurer Qualifications</u>. Without limiting any obligations or liabilities of Contractor, Contractor shall purchase and maintain, at its own expense, hereinafter stipulated minimum insurance with insurance companies authorized to do business in the State of Missouri, with an AM Best, Inc. rating of A or above with policies and forms satisfactory to the City. Failure to maintain insurance as specified herein may result in termination of this Agreement at the City's option.
- B. No Representation of Coverage Adequacy. The City reserves the right to review any and all of the insurance policies and/or endorsements cited in this Agreement, but has no obligation to do so. Failure to demand such evidence of full compliance with the insurance requirements set forth in this Agreement or failure to identify any insurance deficiency shall not relieve Contractor from, nor be construed or deemed a waiver of, its obligation to maintain the required insurance at all times during the performance of this Agreement.
- C. <u>Additional Insured</u>. All insurance coverage and self-insured retention or deductible portions, except Workers' Compensation insurance and Professional Liability insurance, if applicable, shall name and endorse, to the fullest extent permitted by law for claims arising out of the performance of this Agreement, the City, its agents, representatives, officers, directors, officials and employees as Additional Insured as specified under the respective coverage sections of this Agreement.
- D. <u>Coverage Term</u>. All insurance required herein shall be maintained in full force and effect until all work or services required to be performed under the terms of this Agreement are satisfactorily performed, completed and formally accepted by the City, unless specified otherwise in this Agreement.
- E. <u>Primary Insurance</u>. Contractor's insurance shall be, or be endorsed to indicate, its primary, non-contributory insurance with respect to performance of this Agreement and in the protection of the City as an Additional Insured. Such coverage shall be at least as broad as ISO CG 20 01 04 13.
- F. <u>Claims Made</u>. In the event any insurance policies required by this Agreement are written on a "claims made" basis, coverage shall extend, either by keeping coverage in force or purchasing an extended reporting option, for six (6) years past completion and acceptance of the services. Such continuing coverage shall be evidenced by submission of annual Certificates of Insurance citing applicable coverage is in force and contains the provisions as required herein for the three-year period.
- G. <u>Waiver</u>. All policies, except for Professional Liability, including Workers' Compensation insurance, shall contain a waiver of rights of recovery (subrogation) against the City, its agents, representatives, officials, officers and employees for any claims arising out of the work or services of Contractor. Contractor shall arrange to have such subrogation waivers incorporated into each policy via formal written endorsement.
- H. <u>Policy Deductibles and/or Self-Insured Retentions</u>. The policies set forth in these requirements may provide coverage that contains deductibles or self-insured retention amounts. Such deductibles or self-insured retention shall not be applicable with respect to the policy limits provided to the City. Contractor shall be solely responsible for any such deductible or self-insured retention amount.
- I. <u>Escalator</u>. The limits of liability for each policy coverage amount stated in this Section shall be automatically adjusted upward as necessary to remain at all times not less than the maximum amount of liability set forth in Chapter 537.610 RSMo applicable to political subdivisions pursuant to 537.600; provided that nothing herein or in any such policy shall be deemed to waive the City's sovereign immunity. The statutory waiver of sovereign immunity for 2019 is \$2,865,330 for all claims arising out of a single accident or occurrence.
- J. <u>Use of Subcontractors</u>. If any work under this Agreement is subcontracted in any way, Contractor shall either cover all subcontractors in the Contractor's liability insurance policy or execute written agreements with its subcontractors containing the indemnification provisions set forth in this Section and insurance requirements set forth herein protecting the City and Contractor. Contractor shall be responsible for executing any agreements with its subcontractors and obtaining certificates of insurance verifying the insurance requirements.
- K. Notice of Claim. The Contractor shall upon receipt of notice of any claim in connection with this Agreement promptly notify the City, providing full details thereof, including an estimate of the amount of loss or liability. The Contractor shall also promptly notify the City of any reduction in limits of protection afforded under any policy listed in the certificate(s) of insurance in an amount such that the policy aggregate becomes less than the current statutory waiver of sovereign immunity regardless of whether such impairment is a result of this Agreement. A breach of this provisions is a material breach of this Agreement.

L. <u>Evidence of Insurance</u>. Prior to commencing any work or services under this Agreement, Contractor will provide the City with suitable evidence of insurance in the form of certificates of insurance and a copy of the declaration page(s) of the insurance policies as required by this Agreement, issued by Contractor's insurance insurer(s) as evidence that policies are placed with acceptable insurers as specified herein and provide the required coverages, conditions and limits of coverage specified in this Agreement and that such coverage and provisions are in full force and effect. The City may reasonably rely upon the certificates of insurance and declaration page(s) of the insurance policies as evidence of coverage but such acceptance and reliance shall not waive or alter in any way the insurance requirements or obligations of this Agreement.

If any of the policies required by this Agreement expire during the life of this Agreement, Contractor shall forward renewal certificates and declaration page(s) to the City thirty (30) days prior to the expiration date. All certificates of insurance and declarations required by this Agreement shall be identified by referencing number and title of this Agreement.
