Interest Response: Having always had an interest in architecture and general growth of cities, I couldn't find a better way to give back and serve the city that has offered so much to me. I'd love to be able to help positively influence the growth potential of Lee's Summit and truly make it the best it can be by offering my architecture and planning background to the council members. With my Masters of Architecture, I believe I can provide a new breath of knowledge and input to the other amazing citizens on the council in addition to those providing the development projects to Lee's Summit.

Other Activities: Actively involved in the U.S. Green Building Council, and have a LEED Green Associate Certification (I believe in sustainability)
