Overview of Storm Water Program Discussions

Issue/Request:
Presentation on previous PWC storm water program discussions and policy discussion

Key Issues:
This presentation is intended to provide a basic overview of this issue to update new committee members. A discussion of stormwater policy issues is also part of the presentation.

Background:
The previous PWC conducted a number of discussions on the creation of a comprehensive storm water program for the City beginning in October 2015 and continuing through April 2016. Information on program goals, components, level of service and funding was presented and discussed. This presentation is a basic overview of the past discussions for new committee members. Copies of all previous materials presented and discussed have been provided to committee members as a resource.

In addition, a focus in the presentation will be policy issues related to stormwater priorities. A review of current policy is included.

Presenter: Dena Mezger
