An Ordinance authorizing the City of Lee's Summit to require fingerprinting of applicants or licensees in specified occupations for the purpose of receiving state and national criminal history record information. (CEDC 7/12/23)

Issue/Request:

An Ordinance authorizing the City of Lee's Summit to require fingerprinting of applicants or licensees in specified occupations for the purpose of receiving state and national criminal history record information.

Key Issues:

The City of Lee's Summit regulates the licensure for liquor through Chapter 4 of the Code of Ordinances, the issuance of an identification cards as a solicitor/peddler through Chapter 20 of the Code of Ordinances, and the issuance of certificates of registration to armed or unarmed private security guard through Chapter 22 of the Code of Ordinances within the City of Lee's Summit.

The City of Lee's Summit desires to receive criminal history record information from the Missouri State Highway Patrol and the Federal Bureau of Investigation (FBI) pursuant to Chapter 43, Section 43.535 RSMo. of applicants and licensees in these specified occupations. Criminal history record information will assist the City in performing duties related to the issuance of liquor licenses, solicitor/peddler identification cards, and armed or unarmed private security guard certificates.

The City also desires to use the criminal history record information to screen those seeking prospective

employment, continued employment, or volunteer positions with the City of Lee's Summit. The City of Lee's Summit desires to enact an ordinance to facilitate the receipt of criminal history record information from the Missouri State Highway Patrol, Criminal Justice Information Services (CJIS) Division and the Federal Bureau of Investigation (FBI) pursuant to Chapter 43, Section 43.535 RSMo.

Proposed Council Motion:

I move for adoption of an Ordinance authorizing the City of Lee's Summit to require fingerprinting of applicants or licensees in specified occupations for the purpose of receiving state and national criminal history record information.

Background:

The City currently completes a criminal history check of applicants for liquor licenses, and individuals desiring to be security guards or peddlers or solicitors within the City by searching open, public records through multiple sources. Access to the criminal history record information from Missouri State Highway Patrol, Criminal Justice Information Services (CJIS) Division and the Federal Bureau of Investigation (FBI) pursuant to Chapter 43, Section 43.535 RSMo would allow the City to review closed as well as open criminal history records accessible through one complete and thorough source.

If the City Council approves this ordinance, the City will send the ordinance along with a letter of request to the Missouri Highway Patrol and FBI requesting access to open and closed records criminal history records of applicants for prospective employment or volunteer positions with the City and applicants for licenses and certificates for liquor, peddling or soliciting, and armed security guards. Once approved by the Missouri Highway Patrol and FBI, the City will also be eligible to participate in the state and national Rap Back program which provides on-going updates to criminal record information.

A criminal history check of applicants for liquor licenses, security guards, and peddlers and solicitors is required to comply with the existing city ordinances.

Nicole Walters, Major

Staff recommends approval.
