Key Issues:

This plat is for an additional 46 lots and 6 common area tracts on 21.89 acres for Park Ridge, 5th Plat. The proposed development is a standard single family residential development compatible with the other Park Ridge plats. The proposed final plat is substantially consistent with the approved preliminary plat. The density is lower than the R-1 (Single Family) Residential district maximum.

In accordance with UDO Section 16.340, prior to an ordinance being placed on a City Council agenda for the approval of a final plat, all subdivision-related public improvements shall be constructed and a Certificate of Final Acceptance shall be issued. In lieu of completion of the public improvements and the issuance of a certificate, an escrow secured with cash or an irrevocable letter of credit shall be deposited with the City to secure the completion of all public improvements.

A Certificate of Final Acceptance has not been issued for all subdivision-related public infrastructure at this time but a letter of substantial completion will be issued once additional documents have been provided. The applicant has secured a irrevocable letter of credit for the outstanding items and it has been presented to the City.
