Presentation: Proactive Code Enforcement Update

Background:
Proactive Code Enforcement was launched in January 2022 after the passage of a Council Resolution in February 2021. Since then Neighborhood Services has been implementing the processes that were proposed and building out the program. This presentation will serve as an update about the progress that has been made, items that are still being developed, and the items that are still to come. In addition, performance metrics about the program and the city will be shared to illustrate the positive outcomes of the Proactive Code Enforcement program.

Dan Harper, PE, Assistant Director, Development Services
