An Ordinance awarding the bid for Project No. 97631683 for the Cathodic Protection Program FY23 to Wiedenmann, Inc. in the amount of \$993,300.00 and authorizing the City Manager to execute an agreement for the same. (PWC 4/10/23)

Issue/Request:

An Ordinance awarding the bid for Project No. 97631683 for the Cathodic Protection Program FY23 to Wiedenmann, Inc. in the amount of \$993,300.00 and authorizing the City Manager to execute an agreement for the same.

Key Issues:

- Ductile iron water mains were installed in the various project areas from the 1970's to the 1990's.
- Due to corrosion of iron pipe, frequent water main breaks have occurred in these areas.
- To reduce the rate of corrosion and extend the service life of the water mains in these areas, 910 zinc anodes will be installed as part of this year's Cathodic Protection Program (hereinafter "Project No. 97631683").
- Water Utilities issued an advertisement for bids for the construction of Project No. 97631683 on March 7, 2023, in accordance with local policies and state statutes.
- Wiedenmann, Inc. (hereinafter "Contractor") was found to be the lowest and most responsive bidder by City staff.

- The City desires to enter into an agreement with the Contractor to construct Project No. 97631683.

Proposed Committee Motion:

I move to recommend to the City Council approval of an Ordinance awarding the bid for Project No. 97631683 for the Cathodic Protection Program FY23 to Wiedenmann, Inc. in the amount of \$993,300.00 and authorizing the City Manager to execute an agreement for the same.

Proposed City Council Motion:

FIRST MOTION: I move for a second reading of an Ordinance awarding the bid for Project No. 97631683 for the Cathodic Protection Program FY23 to Wiedenmann, Inc. in the amount of \$993,300.00 and authorizing the City Manager to execute an agreement for the same.

SECOND MOTION: I move for adoption of an Ordinance awarding the bid for Project No. 97631683 for the Cathodic Protection Program FY23 to Wiedenmann, Inc. in the amount of \$993,300.00 and authorizing the City Manager to execute an agreement for the same.

Background:

A Water Research Foundation published in 2018 titled, "Retrofit and Management of Metallic Pipe with Cathodic Protection" provides information and case studies from water utilities installing anodes on existing water mains. The Des Moines Water Works, Louisville Water Company and WaterOne in Johnson County Kansas install anodes to extend the service life of existing water mains. In 2019, a project to install 281, 32-pound magnesium anodes were installed in the Princeton Heights area. Data taken in the Princeton Heights area indicate the anodes are reducing the rate of corrosion on water mains as reported by other water utilities.

Impact/Analysis:

Water Utilities advertised for bids for Project No. 97631683 on March 7, 2023. Potential bidders were notified through QuestCDN and on the City website. Three responsive bids were received by the March 28, 2023, bid opening date. Public Works Engineering and Water Utilities staff reviewed the bids and Wiedenmann, Inc. was determined to be the lowest and most responsive bidder.

*..Presenter*

Jeff Thorn, Deputy Director of Water Utilities

Staff recommends approval.

The Public Works Committee voted unanimously 4-0 to recommend to City Council approval of an Ordinance awarding the bid for Project No. 97631683 for the Cathodic Protection Program FY23 to Wiedenmann, Inc. in the amount of \$993,300.00 and authorizing the City Manager to execute an agreement for the same.
