Background:

The Airport markets our services through multiple medias outlets to local and transient pilots and consist of three parts including.

- Kansas City Metropolitan area pilots who are potential clients to base their aircraft at our Airport.
- Transient pilots who either are not aware of the services that the Lee's Summit Municipal Airport has to offer or close proximity to their destination.
- Provide the general public with information on the activities and workings of the Airport.

Development in the surrounding Lee's Summit area, runway improvements, and the aviation fleet has resulted in changes of the type of clients using the airport and services they are requesting. The adopted Business Plan in 2010 addressed some of these issues and the goal of the Marketing Program is to bridge some of these gaps to keep up with customer demands.

- Marketing Runway Improvements, Hangar 1, and commercial development to business aviation users
- Attend Schedulers and Dispatchers Conference (Feb 2017-2018)
- Airport Open House (June 24th 2017)
- Tenant Construction Update Meeting (Summer 2017)
- Attend NBAA/Business Aircraft Conference and Expo (Oct. 2017)
- Airport tenant Open House (November 2017)
