Stormwater User Fees Information

Issue/Request:

Information on how communities determine stormwater user fees

Key Issues:

*At Feb. 23 PWC meeting committee chair requested additional information on how communities determine stormwater user fees

*Attached table is a summary of processes used by area cities that have established stormwater user fees to determine fees for various types of properties

Background:

During the previous committee meeting a list of area cities with dedicated stormwater funding programs was presented along with the basic residential fees. During discussion, the committee chair asked for additional information on how the cities with user fees determine those fees, particularly for non-residential properties. The attached table is a summary of those methodologies.

Presenter: Dena Mezger, Director of Public Works

Recommendation: N/A
