Public Hearing: Application #PL2022-157 - Unified Development Ordinance (UDO) amendment - Amendment to the allowable freestanding sign standards for non-residential uses in the AG, RDR, RLL, R-1, RP-1, RP-2, RP-3 and RP-4 zoning districts under Article 9, Section 9.260, Table 9-1; City of Lee's Summit, applicant.

Issue/Request:

Staff proposes an amendment to the UDO that will add "ground sign" as a permitted type of permanent sign for non-residential uses (e.g. churches, schools, institutional or special uses) in the agricultural and residential zoning districts. With a few exceptions, City parks are located on property that is zoned for agricultural or residential purposes. In the course of the City's Parks & Recreation Department pursuit of additional wayfinding signage along NE Blackwell Pkwy for Legacy Park, it was discovered that the UDO's sign standards don't accommodate for ground signs in the agricultural and residential zoning districts. While monument signs are allowed in said zoning districts, the Parks & Recreation Department's sign program uses ground signs to identify parks, which are a similar but distinct type of sign. The proposed UDO amendment to include ground signs in the list of allowable sign types for non-residential uses in the agricultural and residential zoning districts brings the UDO into alignment with the Parks & Recreation Department's sign program. Ground signs are already a permitted sign type under the UDO in the commercial, industrial and mixed-use zoning districts, so ground signs used to identify parks located on property with those zoning classifications are compliant with the UDO.
